May 2015 Geography Memo Grade 1:

The Report: Trinidad & Tobago 2016 Oxford Business Group, 2016-08-07 In its March 2016 Economic Bulletin the Central Bank of T T stated that after negative growth of 1% in 2014 T T s economy contracted by a further 2.1% in 2015 as per provisional data. Meanwhile government revenue fell by 6.2% in FY 2014/15 with a 35% decline in energy collections outstripping increases in non energy and capital receipts. Nonetheless the recessionary environment is not without opportunity for the country s new leadership. As the Government of Keith Rowley which assumed office in September 2015 works to bring government spending under control policies aimed at economic diversification could be set to gain further traction. Moreover given that T T has a safety buffer in the form of strong foreign currency reserves and a sovereign wealth fund there is a relatively room to manoeuvre.

After the Education Wars Andrea Gabor, 2018-06-12 The education wars have been demoralizing for teachers. After the Education Wars helps us to see a better way forward. Cathy N Davidson The New York Times Book Review After the Education Wars is an important book that points the way to genuine reform. Diane Ravitch author of Reign of Error and The Death and Life of the Great American School System A bestselling business journalist critiques the top down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler more democratic entrepreneurialism. In an entirely fresh take on school reform business journalist and bestselling author Andrea Gabor argues that Bill Gates Eli Broad and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world. After the Education Wars explains how the market based measures and carrot and stick incentives informing today s reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well. These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up. Lessons also learned from both the open source software and quality movements. The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state s once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life. A welcome exception to the doom and gloom canon of education reform. After the Education Wars makes clear that what s needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools.

From Head Shops to Whole Foods Joshua C. Davis, 2017-08-08 In the 1960s and 70s a diverse range of storefronts including head shops African American bookstores feminist businesses and organic grocers brought the work of the New Left Black Power feminism environmentalism and other movements into the marketplace. Through shared ownership limited growth and democratic workplaces these activist entrepreneurs offered alternatives to conventional profit driven corporate business models. By the middle of the 1970s thousands of these enterprises operated across the United States but only a handful

survive today Some such as Whole Foods Market have abandoned their quest for collective political change in favor of maximizing profits Vividly portraying the struggles successes and sacrifices of these unlikely entrepreneurs From Head Shops to Whole Foods writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered The book challenges the widespread but mistaken idea that activism and political dissent are inherently antithetical to participation in the marketplace Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption social enterprise buying local and mission driven business while also showing how today s companies have adopted the language but not often the mission of liberation and social change
