Warren Buffett famously invoked the metaphor of a tapeworm when describing what healthcare is to the American economy The United States spends approximately 20% of its gross national product on healthcare but it is unclear where the money goes or who is minding the store This healthcare crisis is mostly about money not lack of money but rather misspending of money From the perspective of a healthcare auditor and provider this work describes the problems of American healthcare finance and proposes solutions Extensive charts and graphs are used to trace where money goes in the American healthcare system while other topics such as ethics in healthcare billing un auditable hospital costs and scams are discussed There is evidence that clearly identifies where the money goes and its destination may surprise the reader **The People's Hospital** Ricardo Nuila,2023-03-14 Nuila s storytelling gifts place him alongside colleagues like Atul Gawande Los Angeles Times This compelling mixture of health care policy and gripping stories from the frontlines of medicine The Guardian explores the question where does an uninsured person go when turned away by hospitals clinics and doctors Here we follow the lives of five uninsured Houstonians as their struggle for survival leads them to a hospital that prioritizes people over profit First we meet Stephen the restaurant franchise manager who signed up for his company s lowest priced plan only to find himself facing insurmountable costs after a cancer diagnosis Then Christian a young college student and retail worker who can t seem to get an accurate diagnosis let alone treatment for his debilitating knee pain Geronimo thirty six years old has liver failure but his meager disability check disqualifies him for Medicaid and puts a life saving transplant just out of reach Roxana who s lived in the community without a visa for more than two decades suffers from complications related to her cancer treatment And finally there s Ebonie a young mother whose high risk pregnancy endangers her life Whether due to immigration status income or the vagaries of state Medicaid law all five are denied access to care For all five this exclusion could prove life threatening Each patient eventually lands at Ben Taub the county hospital where Dr Nuila has worked for over a decade Nuila delves with empathy into the experiences of his patients braiding their dramas into a singular narrative that contradicts the established idea that the only way to receive good health care is with good insurance As readers follow

the moving twists and turns in each patient's story it's impossible to deny that our system is broken and that Ben Taub's innovative model where patient care is more important than insurance payments could help light the path forward **Texas State Publications** Texas State Publications Depository Program, 2006 **Keeping Medicaid's Promise: Strengthening Access to Services for Children with Special Healthcare Needs** Cindy Mann, Kinda Serafi, Jen Eder, Kaylee O'Connor, 2019-10-01 **Priorities in Health Statistics**, 1984 Proceedings of the Public Health Conference on Records and Statistics Public Health Conference on Records and Statistics, 1983 A planned study program of the Public Health Service administered by the National Center for Health Statistics **Passing the Special Education TExES Exam** Elaine L.
