This textbook Biochemistry has become one of the most preferred text books in India and many other countries for the students as well as teachers in medical biological and other allied sciences. The book has undergone three editions, several reprints and revised reprints in a span of 13 years. There are many biochemistry textbooks in the market. Some of them are purely basic while others are applied and there are very few books which cover both these aspects together. For this reason, the students learning biochemistry in their undergraduate courses have to depend on multiple books to acquire a sound knowledge of the subject. This book Biochemistry is unique with a simultaneous and equal emphasis on basic and applied aspects of biochemistry. This textbook offers an integration of medical and pure sciences comprehensively written to meet the curriculum requirements of undergraduate courses in medical, dental, pharmacy, life sciences and other categories: agriculture, veterinary etc. This book is designed to develop in students a sustained interest and enthusiasm to learn and develop the concepts in biochemistry in a logical and stepwise manner. It incorporates a variety of pedagogic aids besides colour illustrations to help the students understand the subject quickly and to the maximum. The summary and biomedical clinical concepts are intended for a rapid absorption and assimilation of the facts and concepts in biochemistry. The self-assessment exercises will stimulate the students to think rather than merely learn the subject. In addition, these exercises, essays, short notes, fill in the blanks, multiple choice questions set at different difficulty levels will cater to the needs of all the categories of learners. New to This Edition: The book offers an integration of medical and pure sciences and is comprehensively written, revised and updated to meet the curriculum requirements of Medical, Pharmacy, Dental, Veterinary, Biotechnology, Agricultural Sciences, Life Sciences and others studying Biochemistry as one of the subjects. It is the first text book on Biochemistry in English with multi-colour illustrations by an author from Asia. The use of multicolours is for a clearer understanding of the complicated biochemical reactions. It is written in a lucid style with the subject being presented as an engaging story growing from elementary information to the most recent advances and with theoretical discussions being supplemented with illustrations, flowcharts and tables for easy understanding of Biochemistry. It has each chapter beginning with a four-line verse followed by the text, biomedical concepts, a summary and self-assessment exercises. The lively illustrations and text with appropriate headings and sub-headings in bold type faces facilitate reading, path clarity and quick recall. It provides the most recent and essential information on Molecular Biology and Biotechnology, Diabetes, Cancer, Free Radicals, Free radicals and Antioxidants, Prostaglandins etc. It describes a wide variety of case studies and biochemical correlations and several newer biomedical aspects: Metabolic syndrome, Therapeutic diets, Atkins diet, Trans fatty acids, Epigenetics, Nutrigenomics, Recombinant ribozymes, Membrane transport disorders, Pleural fluid etc. It contains the basics Bioorganic and Biophysical
