**Neurointerventions and the Law** Nicole A Vincent, Thomas Nadelhoffer, Allan McCay, 2020-03-20 This volume makes a contribution to the field of neurolaw by investigating issues raised by the development use and regulation of neurointerventions The broad range of topics covered in these chapters reflects neurolaw s growing social import and its rapid expansion as an academic field of inquiry Some authors investigate the criminal justice system s use of neurointerventions to make accused defendants fit for trial to help reform convicted offenders or to make condemned inmates sane enough for execution while others interrogate the use regulation and social impact of cognitive enhancement

medications and devices Issues raised by neurointervention based gay conversion therapy efficacy and safety of specific neurointervention methods legitimacy of their use and regulation and their implications for authenticity identity and responsibility are among the other topics investigated Dwelling on neurointerventions also highlights tacit assumptions about human nature that have important implications for jurisprudence For all we know at present such things as people's capacity to feel pain their sexuality and the dictates of their conscience are unalterable But neurointerventions could hypothetically turn such constants into variables The increasing malleability of human nature means that analytic jurisprudential claims true in virtue of meanings of jurisprudential concepts must be distinguished from synthetic jurisprudential claims contingent on what humans are actually like Looking at the law through the lens of neurointerventions thus also highlights the growing need for a new distinction between analytic jurisprudence and synthetic jurisprudence to tackle issues that increasingly malleable humans will face when they encounter novel opportunities and challenges

**Critical Issues in Alcohol and Drugs of Abuse Testing** Amitava Dasgupta, 2019-01-10 Critical Issues in Alcohol and Drugs of Abuse Testing Second Edition addresses the general principles and technological advances for measuring drugs and alcohol along with the pitfalls of drugs of abuse testing Many designer drugs for example are not routinely tested in drugs of abuse panels and may go undetected in a drug test This updated edition is a must have for clinical pathologists toxicologists clinicians and medical review officers and regulators bridging the gap between technical and clinical information Topics of note include the monitoring of pain management drugs bath salts spices synthetic marijuana designer drugs and date rape drugs and more Serves as a ready resource of information for alcohol and drug testing Ideal resource for making decisions related to the monitoring and interpretation of results Includes concise content for clinical laboratory scientists toxicologists and clinicians
