Assembly Order - The Chassis

1. Place the body in position on the chassis and adjust it until it is perfectly level. A level base is essential.
2. Drop the body into the chassis and secure it with the screws.
3. The body is now secured. The body is now in position. The chassis is now ready for the front view.
4. Some chassis designs may be required to show the front view. If the body is not in position, place the body in position and adjust the rear view to bring it to the front.
5. Put away the body from the chassis. It is now ready to be used. Make sure all engine components are in place. Make the chassis. Make the body and make it ready.
