Mississippi Curriculum Frameworks Math Pacing Guide:

Resources in Education, 2001-04 *Mathematics Teachers at Work* Janine T. Remillard, Beth A.

Herbel-Eisenmann, Gwendolyn M. Lloyd, 2011-09-20 This book compiles and synthesizes existing research on teachers use of mathematics curriculum materials and the impact of curriculum materials on teaching and teachers with a particular emphasis on but not restricted to those materials developed in the 1990s in response to the NCTM's Principles and Standards for School Mathematics Despite the substantial amount of curriculum development activity over the last 15 years and growing scholarly interest in their use the book represents the first compilation of research on teachers and mathematics curriculum materials and the first volume with this focus in any content area in several decades *Mathematics Teaching, Learning, and Liberation in the Lives of Black Children* Danny Bernard Martin, 2010-06-21

With issues of equity at the forefront of mathematics education research and policy *Mathematics Teaching Learning and Liberation in the Lives of Black Children* fills the need for authoritative rigorous scholarship that sheds light on the ways that young black learners experience mathematics in schools and their communities This timely collection significantly extends the knowledge base on mathematics teaching learning participation and policy for black children and it provides new framings of relevant issues that researchers can use in future work More importantly this book helps move the field beyond analyses that continue to focus on and normalize failure by giving primacy to the stories that black learners tell about themselves and to the voices of mathematics educators whose work has demonstrated a commitment to the success of these children **Teaching**
