occurred in recent years as the number of temporary labourers admitted to Canada has increased substantially. Legislated Inequality critically evaluates this radical development in Canadian immigration, arguing that it threatens to undermine Canada's success as an immigrant nation. Assessing each of the four major temporary labour migration programs in Canada, contributors from a range of disciplines including comparative political science, philosophy and sociology show how temporary migrants are posed to occupy a permanent yet marginal status in society and argue that Canada's temporary labour policy must undergo fundamental changes in order to support Canada's long-held immigration goals. The difficult working conditions faced by migrant workers as well as the economic and social dangers of relying on temporary migration to relieve labour shortages are described in detail. Legislated Inequality provides an essential critical analysis of the failings of temporary labour migration programs in Canada and proposes tangible ways to improve the lives of labourers. Contributors include Abigail Bakan, Queen's University; Tom Carter, University of Manitoba; Sarah D'Aoust, University of Ottawa; Christina Gabriel, Carleton University; Jill Hanley, McGill University; Jenna Hennebry, Wilfrid Laurier University; Christine Hughes, Carleton University; Karen D. The Well-being of International Migrants in Rural Areas: Bridging the Migration-Development Nexus Philomena De Lima, Belinda Leach, David Radford, Seema Arora-Jonsson, 2022-10-17 *Neoliberal Contentions* Lois Harder, Catherine Kellogg, Steve Patten, 2022-12-21 Since the 1980s, neoliberalism has had a major impact on social life and in turn research in the social sciences. Emerging from the crisis of the Keynesian welfare state, neoliberalism describes a social transformation that has impacted relationships between citizens and the state, consumers and the market, and individuals and groups. *Neoliberal Contentions* offers original essays that explore neoliberalism in its various guises. It includes chapters on economic policy and restructuring, resource extraction, multiculturalism and equality, migration and citizenship, health reform, housing policy, and 2SLGBTQ communities. Drawing on the work of influential Canadian political economist Janine Brodie, the contributors use Brodie's scholarship as a springboard for their own distinct analyses of pressing political and social issues. Acknowledging neoliberalism's crises, failures, and contradictions, this collection contends with neoliberalism by diagnosing the present, situating the phenomenon within a broader historical and political-economic context, and observing instances in which neoliberal rationality is reinforced as well as resisted.
