Commerce, Justice, Science, and Related Agencies Appropriations for 2016 United States. Congress. House. Committee on Appropriations. Subcommittee on Commerce, Justice, Science, and Related Agencies, 2015 *Clean Power Politics* Joseph P. Tomain, 2017-02-17 Clean Power Politics explains clean energy policy and the need for a successful transition to clean energy in the future

How the World Breaks Stan Cox, Paul Cox, 2016-07-12 We've always lived on a dangerous planet but its disasters aren't what they used to be How the World Breaks gives us a breathtaking new view of crisis and recovery on the unstable landscapes of the Earth's hazard zones Father and son authors Stan and Paul Cox take us to the explosive fire fronts of overheated Australia the future lost city of Miami the fights over whether and how to fortify New York City in the wake of Sandy the Indonesian mud volcano triggered by natural gas drilling and other communities that are reimagining their lives after quakes superstorms tornadoes and landslides In the very decade when we should be rushing to heal the atmosphere and address the enormous inequalities of risk a strange idea has taken hold of global disaster policy resilience Its proponents say that threatened communities must simply learn the art of resilience adapt to risk and thereby survive This doctrine obscures the human hand in creating disasters and requires the planet's most beleaguered people to absorb the rush of floodwaters and the crush of landslides freeing the world economy to go on undisturbed The Coxes' great contribution is to pull the disaster debate out of the realm of theory and into the muck and ash of the world's broken places There we learn that change is more than mere adaptation and life is more than mere survival Ultimately How the World Breaks reveals why unless we address the social ecological and economic roots of disaster millions more people every year will find themselves spiraling into misery It is essential reading for our time

The Complacent Class Tyler Cowen, 2017-02-28 A Wall Street Journal and Washington Post Bestseller Tyler Cowen's blog Marginal Revolution is the first thing I read every morning And his brilliant new book The Complacent Class has been on my nightstand after I devoured it in one sitting I am at round the clock Cowen saturation right now Malcolm Gladwell Since Alexis de Tocqueville restlessness has been accepted as a signature American trait Our willingness to move take risks and adapt to change have produced a dynamic economy and a tradition of innovation from Ben Franklin to Steve Jobs The problem according to legendary blogger economist and best selling author Tyler Cowen is that Americans today have broken from this tradition we're working harder than ever to avoid change We're moving residences less marrying people more like ourselves and choosing our music and our mates based on algorithms that wall us off from anything that might be too new or too different Match.com matches us in love Spotify and Pandora match us in music Facebook matches us to just about everything else Of course this matching culture brings tremendous positives music we like partners who make us happy neighbors who want the same things We're more comfortable But according to Cowen there are significant collateral downsides attending this comfort among them heightened inequality and segregation and decreased incentives to innovate and create The Complacent Class argues that

this cannot go on forever We are postponing change due to our near sightedness and extreme desire for comfort but ultimately this will make change when it comes harder The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again

Designing Indicators for a Plural Legal World
Siddharth Peter de Souza, 2022-11-10 Designing Indicators for a Plural Legal World engages with the role of quantification in law and its impact on law and development and judicial reform It seeks to examine how different institutions shape and influence the making and use of legal indicators globally This book sheds light on the limitations of existing quantification tools which measure rule of law due to their lack of engagement with contexts and countries in the Global South It offers an alternative framework for measurement which moves away from an institutional look at rule of law to a bottom up user centered approach that places importance on the lives that people lead and the challenges that they face In doing so it offers a way of thinking about access to justice in terms of human capabilities

Geospatial Challenges in the 21st Century
Kostis Koutsopoulos, Rafael de Miguel González, Karl Donert, 2019-01-16 This book focuses on 21st century geospatial technologies GT It highlights their broad range of capabilities and their essential role in effectively addressing and resolving critical everyday issues such as environment sustainability climate change urban planning economy culture and geopolitics Featuring chapters written by leading international scientists it discusses the application of GT tools and demonstrates that the problems requiring such tools transcend national boundaries cultures political systems and scientific backgrounds on a global scale In addition it enhances readers spatial understanding of and geographical reasoning in connection with societal issues The book will appeal to scientists teachers and students of geography the earth sciences and related areas as well as decision makers interested in the application and capabilities of geospatial technologies and new spatial methods for addressing important issues

The War Lawyers Craig Jones, 2020-11-26 Over the last 20 years the world s most advanced militaries have invited a small number of military legal professionals into the heart of their targeting operations spaces which had previously been exclusively for generals and commanders These professionals trained and hired to give legal advice on an array of military operations have become known as war lawyers The War Lawyers examines the laws of war as applied by military lawyers to aerial targeting operations carried out by the US military in Iraq and Afghanistan and the Israel military in Gaza Drawing on interviews with military lawyers and others this book explains why some lawyers became integrated in the chain of command whereby military targets are identified and attacked whether by manned aircraft drones and or ground forces and with what results This book shows just how important law and military lawyers have become in the conduct of contemporary warfare and how it is understood Jones argues that circulations of law and policy between the US and Israel have bolstered targeting practices considered legally questionable contending that the involvement of war lawyers in

targeting operations enables legitimises and sometimes even extends military violence *Inland Waterway Transport* Bart Wiegmans, Rob Konings, 2016-07-01 Inland waterways are a host for a mode of transport that is not as visible to the general public or as used as it once was It is however generally perceived to be very important to our freight transport system today although a closer look into the inland waterway transport system rebuts this perception and reveals the strengths and opportunities of this mode of transportation This book gives the reader a thorough understanding of the current role of inland waterway transport as a freight transport system and its conditions Drawing on case studies from across Europe this text explores the economic logistic and technological and policy issues related to inland waterway transport and the challenges that changes in these areas present to this transport mode It also explores the strategies for the inland waterway transport sector to secure and then enlarge its role in the future of freight transport *Inland Waterway Transport* will be an invaluable source for students and researchers of transport studies In addition the book will be useful to policymakers and practitioners involved in its development It may also appeal to wider readers with an interest in the fascinating business of inland waterway transport *Post-Communist Romania at Twenty-Five* Lavinia Stan, Diane Vancea, 2015-06-24 2014 marked the 25th anniversary of the collapse of communist regimes in Eastern Europe The events of 1989 are widely seen as having ushered in new all encompassing reforms in almost all areas of life In few other places were reforms more contested and divisive than in Romania a country that suffered greatly under the sultanistic cum totalitarian dictatorship of Nicolae Ceausescu faced the region's only bloody anti communist revolt and as such had the longest to travel on the road from communism to democracy We now have a generation's worth of experience with these wrenching reforms that have deeply affected Romania's political institutions and political culture and ultimately allowed it to become a member of the coveted European Union club This volume gathers key lessons for democratic theory and practice from Romania's first twenty five years of post communist transformation Written by leading experts in the field of Romanian Studies the chapters focus on the most important factors that have shaped the country's political transformation during the first 25 years of post communism

The Suburban Land Question Richard Harris, Ute Lehrer, 2018-04-13 As part of the urbanization process suburban development involves the conversion of rural land to urban use When discussing the suburbs most writers focus on particular countries in the northern hemisphere implying that patterns and processes elsewhere are fundamentally different The purpose of *The Suburban Land Question* is to identify the common elements of suburban development focusing on issues associated with the scale and pace of rapid urbanization around the world Editors Richard Harris and Ute Lehrer and a diverse group of contributors draw on a variety of sources including official data planning documents newspapers interviews photographs and field observations to explore the pattern process and planning of suburban land development Featuring case studies from major world regions including China India Latin America South Africa as well as France Austria the Netherlands the United States and Canada the volume identifies and discusses the peculiarly transitional character of

suburban land In addition to place and time The Suburban Land Question addresses the many elements that distinguish land development in urban fringe areas including economy social infrastructure and legality

Enjoying the Tune of Phrase: An Mental Symphony within **Geography Final Question Paper November 2014**

In some sort of eaten by screens and the ceaseless chatter of instantaneous interaction, the melodic elegance and mental symphony produced by the written term often disappear into the back ground, eclipsed by the constant sound and interruptions that permeate our lives. However, nestled within the pages of **Geography Final Question Paper November 2014** an enchanting fictional value full of natural thoughts, lies an immersive symphony waiting to be embraced. Constructed by a wonderful musician of language, this captivating masterpiece conducts readers on an emotional journey, well unraveling the concealed songs and profound influence resonating within each carefully constructed phrase. Within the depths with this moving evaluation, we will examine the book is central harmonies, analyze its enthralling writing type, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
