## Germany And The Next War:

**Germany and the Next War** Friedrich von Bernhardi, 1912      **Germany and the Next War** Friedrich Von Bernhardi, 2017-05-08 Germany and the Next War By Friedrich von Bernhardi      Germany and the Next War Friedrich Von Bernhardi, 2019-11-12 Since 1795 when Immanuel Kant published in his old age his treatise on Perpetual Peace many have considered it an established fact that war is the destruction of all good and the origin of all evil In spite of all that history teaches no conviction is felt that the struggle between nations is inevitable and the growth of civilization is credited with a power to which war must yield But undisturbed by such human theories and the change of times war has again and again marched from country to country with the clash of arms and has proved its destructive as well as creative and purifying power It has not succeeded in teaching mankind what its real nature is Long periods of war far from convincing men of the necessity of war have on the contrary always revived the wish to exclude war where possible from the political intercourse of nations Friedrich Adam Julius von Bernhardi was a Prussian general and military historian He was a best selling author prior to World War I A militarist he is perhaps best known for his bellicose book Deutschland und der N chste Krieg printed in 1911      **Germany and the Next War** Friedrich von Bernhardi, 2017-08-06 This work is most famous for its apotheosis of war War is a biological necessity of the first importance a regulative element in the life of mankind which cannot be dispensed with since without it an unhealthy development will follow which excludes every advancement of the race and therefore all real civilization but polemic aside it most useful as an indication of how the German General Staff viewed the modernization of the armed forces in the run up to the first World War      **Germany and the Next War, by Friedrich Von Bernhardi** Friedrich von Bernhardi, 1913      **Germany and the next war, by General Friedrich von Bernhardi; tr. by Allen H. the diplomatic action of the Government Public opinion which was clearly in favour of asserting ourselves did not understand the dangers of our political position and the sacrifices which a boldly outlined policy would have demanded I cannot say whether the nation which undoubtedly in an overwhelming majority would have gladly obeyed the call to arms would have been equally ready to bear permanent and heavy burdens of taxation Haggling about war contributions is as pronounced a characteristic of the German Reichstag in modern Berlin as it was in medieval Regensburg These conditions have induced me to publish now the following pages which were partly written some time ago Nobody can fail to see that we have reached a crisis in our national and political development At such times it is necessary to be absolutely clear on three points the goals to be aimed at the difficulties to be surmounted and the sacrifices to be made About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Germany and the Next War - War College Series* Friedrich von Bernhardt, Allen H.
