

Introduction

Purpose of the Report

The Comprehensive Needs Assessment (CNA) was developed to be used as a tool to assist a school staff in determining the strengths and challenges of their school. The CNA assesses the system processes and protocols of practice that are in place to support student academic achievement. *Completion of these reports will also fulfill many of the federal requirements for a comprehensive needs assessment prior to decisions regarding how federal funds will be spent in a building or district.*

Structure of the Report

The School Improvement Framework establishes a vision for school improvement. The Process Cycle for School Improvement has four major components that cycle in continuous praxis. They are:

Gather Data Where are we now (status) and where do we want to be (goals)?

Study/Analyze What did the data/information we collected tell us?

Plan How do we organize our work so that it aligns to our goals and resources?

Do Staff implements the strategies and action steps outlined in the plan

Gather Data II Where are we now (status) and did we reach our goals?

While the SI Framework provides the vision for school improvement, the CNA is a tool that supports two of the four areas of the School Improvement Process: **Gather Data** and **Study**. The following pages provide probing questions to create dialogue about student and school data. They are designed to facilitate a deeper reflection into a school's data/information and protocols of practice in order to identify areas of need. Data/information from the CNA can be used to write a school improvement plan that includes specific student achievement goals, objectives, and strategies designed by the stakeholders. A CNA should be conducted once every three to five years, coinciding with the school improvement planning cycle, and revisited annually.

Sources of data/information that serve the process of needs identification can include: School Improvement Framework Rubric self-assessment (which includes the EdVESI Performance Indicators), the current school improvement plan, information contained in the School Report Card, school's annual education report, and student test data from multiple sources.
