Recommended for the permanent library of all fantasy readers Books and Movie Reviews Roberto Mattos re The Sorcerer s Ring Not Saved Peter Sloterdijk, 2017-05-23 One can rightly say of Peter Sloterdijk that each of his essays and lectures is also an unwritten book That is why the texts presented here which sketch a philosophical physiognomy of Martin Heidegger should also be characterized as a collected renunciation of exhaustiveness In order to situate Heidegger s thought in the history of ideas and problems Peter Sloterdijk approaches Heidegger s work with questions such as If Western philosophy emerged from the spirit of the polis what are we to make of the philosophical suitability of a man who never made a secret of his stubborn attachment to rural life Is there a provincial truth of which the cosmopolitan city knows nothing Is there a truth in country roads and cabins that would be able to undermine the universities with their standardized languages and globally influential discourses From where does this odd professor speak when from his professorial chair in Freiburg he claims to inquire into what lies beyond the history of Western metaphysics Sloterdijk also considers several other crucial twentieth century thinkers who provide some needed contrast for the philosophical physiognomy of Martin Heidegger A consideration of Niklas Luhmann as a kind of contemporary version of the Devil s Advocate a provocative critical interpretation of Theodor Adorno s philosophy that focuses on its theological underpinnings and which also includes reflections on the philosophical significance of hyperbole and a short sketch of the pessimistic thought of Emil Cioran all round out and deepen Sloterdijk s attempts to think with against and beyond Heidegger Finally in essays such as Domestication of Being and the Rules for the Human Park which incited an international controversy around the time of its publication and has been translated afresh for this volume Sloterdijk develops some of his most intriguing and important ideas on anthropogenesis humanism technology and genetic engineering **Alter** Gwendolynn Hummel, 2012-09-13 If the human race stood on the brink of extinction and you knew how to bring them back how hard would you fi ght to save them Blade is one of the few survivors of the Alter She and her friends are the only ones that have ever escaped and they are the only ones that can save the world from Ludicrous Ludicrous the man that created the Alter the man that is seeking to recreate the world to fi t his vision of perfection by wiping out the humans and replacing them with machines Now armed with unwanted super powers and knowledge that can save the world Blade has declared the stakes of a race the human population cannot afford to lose But surrounded by deadly betrayals and complicated love stories it only becomes harder for Blade to realize the truth of what she has become

The Book of Esther Emily Barton,2017-08-22 What if an empire of Jewish warriors that really existed in the Middle Ages had never fallen and was the only thing standing between Hitler and his conquest of Russia Eastern Europe August 1942 The Khazar kaganate an isolated nation of Turkic warrior Jews lies between the Pontus Euxinus the Black Sea and the Khazar Sea the Caspian It also happens to lie between a belligerent nation to the west that the Khazars call Germania and a city the rest of the world calls Stalingrad After years of Jewish refugees streaming across the border from Europa fleeing the war Germania launches its siege of Khazaria Only Esther the daughter of the nation s chief policy adviser sees the ominous implications of Germania s disregard for Jewish lives Only she realizes that this isn t just another war but an existential threat After witnessing the enemy warplanes first foray into sovereign Khazar territory Esther knows she must fight for her country But as the elder daughter in a traditional home her urgent question is how Before daybreak one fateful morning she embarks on a perilous journey across the open steppe She seeks a fabled village of Kabbalists who may hold the key to her destiny their rumored ability to change her into a man so that she may convince her entire nation to join in the fight for its very existence against an enemy like none Khazaria has ever faced before The Book of Esther is a profound saga of war technology mysticism power and faith This novel simultaneously a steampunk Joan of Arc and a genre bending tale of a counterfactual Jewish state by a writer who invents worlds out of Calvino or Borges The New Yorker is a stunning achievement Reminiscent of Michael Chabon s The Yiddish Policemen s Union and Philip Roth s The Plot Against America The Book of Esther reaffirms Barton s place as one of her generation s most gifted storytellers *The American Hebrew*,1922
