Game Production Geoffrey Engelstein, 2020-12-21 Description Many new games are from first time designers or are self published so there is a tremendous thirst for information about the nuts and bolts of tabletop game design While there are many books about the design process in terms of mechanisms and player experience there are no books that cover the arts and crafts aspects of how to create a prototype software and physical tools that can be used graphic design and rules writing and considerations for final production Gamecraft Prototyping and Producing Your Board Game presents this information in a single volume which will be invaluable for up and coming designers and publishers Key Features The text compiles information from many websites blogs Facebook groups subreddits and the author s extensive experience in an easy to read volume The text illustrates how to lay out and assemble the physical aspects of an effective board game The book is divided into two sections for readability and covers a large array of different techniques Geoffrey Engelstein is the designer of many tabletop games including The Ares Project the Space Cadets series The Dragon Flagon and The Expanse He is the founder of Ludology a bi weekly podcast about game design and a contributor to the Dice Tower podcast with his bi weekly GameTek segments that discuss the math science and psychology of games He has also published several books including GameTek The Math and Science of Gaming Achievement Relocked Loss Aversion and Game Design and Building Blocks of Tabletop Game Design He is on the faculty of the NYU Game Center as an adjunct professor for Board Game Design and has been invited to speak at PAX GenCon Metatopia and the Game Developers Conference

How to Talk about Videogames Ian Bogost, 2015-11-15 Videogames Aren t they the medium of the twenty

first century The new cinema The apotheosis of art and entertainment the realization of Wagnerian gesamtkunstwerk The final victory of interaction over passivity No probably not Games are part art and part appliance part tableau and part toaster In How to Talk about Videogames leading critic Ian Bogost explores this paradox more thoroughly than any other author to date Delving into popular familiar games like Flappy Bird Mirror's Edge Mario Kart Scribblenauts Ms Pac Man FarmVille Candy Crush Saga Bully Medal of Honor Madden NFL and more Bogost posits that videogames are as much like appliances as they are like art and media We don't watch or read games like we do films and novels and paintings nor do we perform them like we might dance or play football or Frisbee Rather we do something in between with games Games are devices we operate so game critique is both serious cultural currency and self parody It is about figuring out what it means that a game works the way it does and then treating the way it works as if it were reasonable when we know it isn't Noting that the term games criticism once struck him as preposterous Bogost observes that the idea taken too seriously risks balkanizing games writing from the rest of culture severing it from the rivers and fields that sustain it As essential as it is he calls for its pursuit to unfold in this spirit God save us from a future of games critics gnawing on scraps like the zombies that fester in our objects of study
