How To Cite A Recipe:

Recipes and Everyday Knowledge Elaine Leong, 2018-11-28 Across early modern Europe men and women from all ranks gathered medical culinary and food preservation recipes from family and friends experts and practitioners and a wide array of printed materials Recipes were tested assessed and modified by teams of householders including masters and servants husbands and wives mothers and daughters and fathers and sons This much sought know how was written into notebooks of various shapes and sizes forming treasuries for health each personalized to suit the whims and needs of individual communities In *Recipes and Everyday Knowledge* Elaine Leong situates recipe knowledge and practices among larger questions of gender and cultural history the history of the printed word and the history of science medicine and technology The production of recipes and recipe books she argues were at the heart of quotidian investigations of the natural world or household science She shows how English homes acted as vibrant spaces for knowledge making and transmission and explores how recipe trials allowed householders to gain deeper understandings of sickness and health of the human body and of natural and human built processes By recovering this story Leong extends the parameters of natural inquiry and productively widens the cast of historical characters participating in and contributing to early modern science

Inventing Authenticity Carrie Helms Tippen, 2018-08-12 In *Inventing Authenticity* Carrie Helms Tippen examines the rhetorical power of storytelling in cookbooks to fortify notions of southernness Tippen brings to the table her ongoing hunt for recipe cards and evaluates a wealth of cookbooks with titles like *Y all Come Over* and *Bless Your Heart* and famous cookbooks such as Sean Brock's *Heritage* and Edward Lee's *Smoke and Pickles* She examines her own southern history grounding it all in a thorough understanding of the relevant literature The result is a deft and entertaining dive into the territory of southern cuisine black eyed peas and cornbread fried chicken and fried okra pound cake and peach cobbler and a look at and beyond southern food tropes that reveals much about tradition identity and the yearning for authenticity Tippen discusses the act of cooking as a way to perform and therefore reinforce the identity associated with a recipe and the complexities inherent in attempts to portray the foodways of a region marked by a sometimes distasteful history *Inventing Authenticity* meets this challenge head on delving into problems of cultural appropriation and representations of race thorny questions about authorship and more The commonplace but deceptively complex southern cookbook can sustain our sense of where we come from and who we are or who we think we are

Recipes on the Move in Early Modern England and British North America Hillary

Nunn,2025-10-01 Using feminist and ecocritical approaches alongside recent historical work on early modern trade and commerce this volume focuses on early modern manuscripts whose travels can be traced from one location to another It illustrates how recipes came to blend newly encountered ingredients and practices with long established healthcare methods In the process it offers attention to both the English countryside and the American colonies to expand what is often a London centered view of English healthcare Tracing the circulation of women s domestic knowledge and considering the availability of ingredients this work shows how mobility brought new methods and materials to home healthcare which in turn influenced how women and their families envisioned their relationships to their environment their bodies and their nation

Eating and Ethics in Shakespeare's England David B. Goldstein,2013-11-07

David B Goldstein argues for a new understanding of Renaissance England from the perspective of communal eating Rather than focus on traditional models of interiority choice and consumption Goldstein demonstrates that eating offered a central paradigm for the ethics of community formation The book examines how sharing food helps build demarcate and destroy relationships between eater and eaten between self and other and among different groups Tracing these eating relations from 1547 to 1680 through Shakespeare Milton religious writers and recipe book authors Goldstein shows that to think about eating was to engage in complex reflections about the body s role in society In the process he radically rethinks the communal importance of the Protestant Eucharist Combining historicist literary analysis with insights from social science and philosophy the book s arguments reverberate well beyond the Renaissance Ultimately Eating and Ethics in Shakespeare s England forces us to rethink our own relationship to food

Books as Archaeological Objects Madeline Shanahan, 2014-11-18 During the mid to late seventeenth century women in Irish houses from elite backgrounds started to collect recipes which they recorded in domestic manuscripts While these manuscripts were made elsewhere at an earlier date they were an almost entirely new arrival to Ireland in this period and their sudden proliferation said much about changes taking place in society at large This book is a detailed study of such manuscripts from the perspective of historical archaeology which will argue that they are artifacts which clearly demonstrate that a profound series of changes was taking place The written word penetrated people s daily lives and homes to a degree that it had not in previous periods and it had a profound influence on how they related to their world objects and each other While this book will address how we can use them as sources for the study of food history and material culture it is ultimately concerned with the meanings of manuscript recipe books and specifically what they say about the individuals and society that made them The proliferation of these manuscripts signaled a profound change not just in cuisine but also in the way people thought about and related to food as a form of material culture Ultimately this book will argue that these manuscripts are not simply excellent records which can tell us about material culture within the early modern house but that they are a profoundly important type of artifact in their own right Undertaking research that situates textual objects such as recipe books at the very core of historical archaeology is critical to understanding some of the most significant changes that took place in the early modern world
