A Giant Reborn Johan Van Overtveldt, 2015-07-04 The world is in turmoil Whether one looks at Europe Asia North America the Middle East Africa or Latin America uncertainty and upheaval seem to be the order of the day Nevertheless there seems to be an odd certainty in the minds of many pundits writers and citizens in this highly volatile world of geopolitics the days of the United States as the world's sole superpower are over The consensus tells us that the United States will not be able to keep a status as a major power among China the European community and a resurgent Russia How realistic is this perspective though Is the air of inevitability concerning America's demise merely a passing breeze How solid is the unstoppable rise of the Chinese How likely is it for Europe to right its ship *A Giant Reborn* from critically acclaimed author and leading economic journalist Johan Van Overtveldt dispels many of these ingrained assumptions and argues that the 21st century will be defined by the country currently best set up to succeed the

United States of America In the current chaotic political climate it seems risky to say any country will be able to maintain its current status But Van Overtveldt provides a measured insightful and thoroughly engaging examination of the evidence In his richly detailed style and straightforward explanations he masterfully lays out a case for why America against many pundits best predictions is set up to continue its 20th century success into this millennium A Giant Reborn shows readers that the reports of America s death to paraphrase the father of American literature have been greatly exaggerated
