## **Hse Wound Care Guidelines:**

**The Care of Wounds** Carol Dealey, 2008-04-15 Care of Wounds addresses all aspects of holistic wound care management. The third edition of this successful text continues to reflect current research and evidence based practice while incorporating the considerable developments which have occurred in wound care practice since the publication of the second edition. The third edition includes new chapters on evidence based wound care and the organisation of wound management together with new material on nurse prescribing and the management of wounds in the community, the development of nurse led ulcer clinics and specialist wound management centres, details of new technologies and the use of pressure redistributing equipment. Although principally written for nurses it is of value to all healthcare professionals working in the field of wound healing.

**The Royal Marsden Manual of Clinical Nursing Procedures, Student Edition** Sara Lister, Justine Hofland, Hayley Grafton, Catherine Wilson, 2021-04-13 The student edition of The Royal Marsden Manual of Clinical Nursing Procedures has been the definitive market leading textbook of clinical nursing skills for fifteen years. This internationally best selling title sets the gold standard for nursing care providing the procedures, rationale and guidance required by pre-registration students to deliver clinically effective patient focused care with expertise and confidence. With over two hundred detailed procedures which reflect the skills required to meet The Standards of Proficiency for Registered Nurses NMC 2019, this comprehensive manual presents the evidence and underlying theory alongside full colour illustrations and a range of learning activities designed to support student nurses in clinical practice. Loved and trusted by millions, The Royal Marsden Manual of Clinical Nursing Procedures Student Edition continues to be a truly indispensable textbook for students and includes coverage of patient assessment and discharge planning, communication, infection prevention and control, perioperative care, wound management, nutrition, diagnostic testing, medicines management and much more. Learning features in this revised tenth edition include Learning outcomes summarise the focus of the information in each chapter. Learning in practice asks you to consider issues within your practice environment. Case studies provide learning around a particular patient scenario. Clinical applications ask you to consider how you would apply your knowledge to a clinical situation. Stretch activities challenge you with more nuanced advanced issues to reflect upon. Many of the features in the book are relevant to trainee nursing associates, especially when used in conjunction with supervision from academic and clinical teachers.
