Asia's Entrepreneurs Virginia Cha, Jennifer Lien, 2013-10-28 This book is a collection of technology startup cases in Asia told in a narrative form to give readers an insider view to how innovators and technopreneurs view entrepreneurial opportunities from use of technology how the technopreneurs raise funding to support their vision and the subsequent relationship of the technopreneurs and their investors The book illustrates some of the cases using the theory of effectuation The book is divided into four sections Part One chronicles case studies of technopreneurs who raised capital but had difficulty with managing the investor expectations and relationship to the detriment of the venture Part Two chronicles case studies of technopreneurs who started their ventures without venture capital with some who later raised capital at a much later stage and were able to exit successfully All case studies are of technology ventures in Asia from the mid 1990 s where venture capital and entrepreneur ecosystem were under developed Lessons learned from the various case studies are told from a practitioner s perspective Part Three describes the development of the venture ecosystem specifically in Singapore a city state aspiring to follow the Silicon Valley model The technopreneurs in Parts I and II play the roles of mentors investors in the newly developing system Part Four includes two new young technology ventures fund raising dilemmas written in a teaching case format The book can be used by practitioners and by educators for developing a deep understanding on the issues of raising capital for the purpose of growing the venture and the trade offs of capital from the different groups of investors and their financial terms It is useful to young and mid career professionals looking at starting a technology venture in Asia

Global Problems, Smart Solutions Bjørn Lomborg, 2013-11-14 Every four years since 2004 the Copenhagen Consensus Center has organized and hosted a high profile thought experiment about how a hypothetical extra 75 billion of development assistance money might best be spent to solve twelve of the major crises facing the world today Collated in this specially commissioned book a group of more than 50 experts make their cases for investment discussing how to combat problems ranging from armed conflicts corruption and trade barriers to natural disasters hunger education and climate change For each case Alternative Perspectives are also included to provide a critique and make other suggestions for investment In addition a panel of senior economists including four Nobel Laureates rank the attractiveness of each policy proposal in terms of its anticipated cost benefit ratio This thought provoking book opens up debate encouraging readers to come up with their own rankings and decide which solutions are smarter than others

**Public Problems - Private Solutions?** Simon Raiser, 2017-11-30 Cities and city regions are undergoing rapid transformation They are prime locations of innovation while at the same time facing growing problems of spatial fragmentation and social exclusion By addressing these problems cities become forerunners for new patterns of governance which include increasingly private actors While research on global cities has focused primarily on the world s leading financial and economic centres comparative research on the changing role of large complex cities in the developing world is less advanced But it is here where public problems are most

seriously threatening the cohesion of urban society and where the need for new answers is most urgent Illustrated by in depth examinations of four city regions Shanghai Mumbai Johannesburg and S o Paulo this book readdresses this balance The book revisits the same set of cities from different angles thereby reflecting urban contradictions juxtapositions and disjunctures

**Global Crises, Global Solutions** Bjørn Lomborg, 2004-10-25 A unique publication exploring the opportunities for addressing ten of the most serious challenges facing the world today Climate Change Communicable Diseases Conflicts Education Financial Instability Corruption Migration Malnutrition and Hunger Trade Barriers Access to Water In a world fraught with problems and challenges we need to gauge how to achieve the greatest good with our money Global Crises Global Solutions provides a rich set of arguments and data for prioritising our response most effectively Each problem is introduced by a world renowned expert defining the scale of the problem and describing the costs and benefits of a range of policy options to improve the situation Each challenge is evaluated by economists from North America Europe and China who attempt a ranking of the most promising options Whether you agree or disagree with the analysis or conclusions Global Crises Global Solutions provides a serious yet accessible springboard for debate and discussion

**World in Transition: Ways Towards Global Environmental Solutions** German Advisory Council on Global change (WBGU), 2012-12-06 At the first Conference of the Parties of the Climate Convention in Berlin in Spring 1995 it became evident once again To counteract anthropogenic climate changes individuals as well as societies have to change their way of thinking and behavior This accounts for other areas of global environmental change as well Global trends like soil degradation loss of biological diversity water scarcity and population growth show little or no sign of improvement In fact in most areas a rapid deterioration has taken place In its latest Report the German Advisory Council on Global Change describes Ways Towards Global Environmental Solutions

Global Problems, Global Solutions JoAnn Chirico, 2018-10-11 Global Problems Global Solutions Prospects for a Better World by JoAnn Chirico approaches social problems from a global perspective with an emphasis on using one s sociological imagination Perfect for instructors who involve students in research this text connects problems borne by individuals to regional global and historical forces and stresses the importance of evidence in forming opinions and policies addressing social issues The book introduces readers to the complexities of the major problems that confront us today such as violent conflict poverty climate change human trafficking and other issues that we encounter in our lives It book concludes with a chapter on politics and government underscoring the need for good governance at all levels and cooperation among many layers of government to build a better world

**Foreign Direct Investment** HWY-CHANG MOON, 2015-12-16 Foreign Direct Investment FDI studies have evolved as one of the mainstreams in business strategy This book presents a comprehensive perspective on the motivations behind the studies the effects of FDI and how it can be utilized and extended to other areas of studies Written with a global perspective this book not only touches upon business strategies but also covers government policies toward promoting and

attracting FDI for industrial and economic development The author with his vast experience in consulting and research projects for multinational companies international organizations and governments examines real world business practices of Eastern firms and how they relate to their Western counterparts thus making this book a valuable and practical reference not only for students but for practitioners too Financing Solutions to Reduce Natural Gas Flaring and Methane Emissions Gianni Lorenzato, Silvana Tordo, Huw Martyn Howells, Berend van den Berg, 2022-05-20 Global oil and gas emissions fell to historic lows in 2020 as a result of the decline in global demand associated with the COVID 19 Coronavirus pandemic Data released by the International Energy Agency suggest that CO2 emissions are on the rise as energy demands increase after the pandemic Whether emissions will rebound to precrisis levels largely depends on governments emphasis on clean energy transition in their efforts to reboot economic growth In 2019 direct and indirect emissions from the oil and gas sector represented about 15 percent of the global energy sector s greenhouse gas emissions More than half of these emissions came from flaring and methane released during oil and gas operations This book aims to create awareness of the business case for reducing gas flaring and methane emissions It provides a framework for policy makers to evaluate the feasibility and financial attractiveness of flaring and methane reduction FMR projects analyzes investment barriers and identifies key variables and success factors backed by lessons learned from case studies Simplified financial modeling templates are suggested to help policy makers to assess FMR options The book focuses on midsize flares that collectively represent 58 percent of the global flare volumes These flares are typically too small to be prioritized by oil companies but still allow for profitable monetization Smaller FMR projects are unlikely to be economically viable unless clustered in larger projects or propelled by an enabling and compulsory regulatory framework Large scale capture projects require tailored projects large ancillary infrastructure government planning and capital injections costing hundreds of millions of dollars Although potentially attractive in terms of equity returns to developers midsize flares face various barriers to the financing and execution of FMR solutions Navigating these barriers requires project developers with specific FMR expertise as highlighted through six detailed case studies discussed in this book Introducing Global Health: Practice, Policy, and Solutions Peter Muennig, Celina Su, 2013-08-12 Introducing Global Health Practice Policy and Solutions is a contemporary overview of the major issues in global public health The book explores how population health might be maximized with the right blend of health system education antipoverty infectious disease urban development governance and incentive based policies It covers topics critical for understanding the state of the world today including wars for natural resources the missing women phenomenon and whether global aid really works The book s case studies focus on developing economies mixed economies and new emerging superpowers Thematic chapters are interwoven with running motifs such as the health risks and benefits associated with different totalitarian capitalist and market socialist economies Moving beyond statistics the book represents a major innovation in the teaching of global health by presenting technical concepts including the incidence and prevalence

of disease within the context of more accessible topics such as global poverty This helps students contextualize otherwise challenging but critical concepts such as the burden of infectious disease By encouraging reflection focusing on what works and using activities and exercises Introducing Global Health both teaches fundamentals of global public health and cultivates a policy perspective that is appealing and compelling for today's students *Development Challenges, South-South Solutions: February 2011 Issue* David South, Writer, Development Challenges South South Solutions is the monthly e newsletter of the United Nations Office for South South Cooperation in UNDP [www.southerninnovator.org](http://www.southerninnovator.org) It has been published every month since 2006 Its sister publication Southern Innovator magazine has been published since 2011 ISSN 2227 3905 Stories by David South [Federalist Solutions to Pakistan's Political Crises](#) Sikander Ahmed Shah, 2024-04-30 Federalist Solutions to Pakistan's Political Crises investigates the transformative potential of communal democratic norms within Pakistan's politico economic sphere Analyzing the current consociational structure which inordinately predicates federal organization on ethnic identity the book reveals the particular challenges facing Pakistan exacerbated by the imposition of neoliberal norms on its society and economy Advocating for a localized centripetalist model Sikander Ahmed Shah proposes leveraging power sharing to counter the prevailing hegemonic trends and to foster greater sociocultural cohesion within Pakistan's diverse polity This model entails dividing Pakistan's federal provinces into smaller diverse entities more reflective of their particular constituent demographics while integrating key democratic principles such as distributive justice grassroots democracy minority protections and multiculturalism into its governance structures The book explores Pakistan's civil military asymmetry emphasizing the influential role of the military establishment and its intertwined relationship with preexisting inter ethnic tensions The analysis also extends to the China Pakistan Economic Corridor CPEC examining its impact on Pakistan's federal structure socio economic fabric and civil military dynamics within the context of China's distinctive economy Throughout the work seeks to provide locally relevant and indigenously viable solutions for positive and equitable outcomes challenging historical power imbalances that have marginalized certain groups in Pakistan
