Subterfuge and Contemporary Persian Fiction Mohammad Khorrami,2014-09-25 The main focus of Literary Subterfuge and Contemporary Persian Fiction is to identify components and elements which define Persian modernist fiction placing an emphasis on literary concepts and devices which provide the dynamics of the evolutionary trajectory of this modernism The question of who writes Iran refers to a contested area which goes beyond the discipline of literary criticism Non-literary discourses have made every effort to impose their committed readings on literary texts they have even managed to exert influence on the process of literary creation In this process inevitably many works or segments of them and many concepts

which do not lend themselves to such readings have been ignored at the same time many of them have been appropriated by these discourses Yet components and elements of Persian literary tradition have persistently engaged in this discursive confrontation mainly by insisting on literature's relative autonomy so that at least concepts such as conformity and subterfuge essential in terms of defining modern and modernist Persian fiction could be defined in a literary manner Proffering an alternative in terms of literary historiography this book supports a methodological approach that considers literary narratives which occur in the margins of dominant discourses and indeed promote non discursivity as the main writers of Persian modernist fiction It is an essential resource for scholars and researchers interested in Persian and comparative literature as well as Middle Eastern Studies more broadly

Literature and the Arts since the 1960s Jorge Almeida e Pinho, Márcia Lemos, 2020-08-13 This collection of essays focuses on addressing the imaginative wake of the rebellious late 1960s with a particular but not exclusive focus on word and image relations The volume showcases and discusses the impact of such processes on literature and the arts of that mythologized historical period It explores the impact of its defining causes hopes and regrets on the creative imagination The awakening moment for that extraordinary momentous period in the global socio political memory was May 1968 which came to be seen as the culmination and epitome of a series of processes involving protest and the affirmation of previously silent or subaltern causes Such processes and causes were predicated on challenges to established powers and mindsets and hence on demands for change which have had rich consequences in literature and the arts
