Locating The English Diaspora 1500 2010 Migrations And Identities Lup:

Locating the English Diaspora, 1500-2010 Tanja Bueltmann, David T. Gleeson, Donald M. MacRaild, 2012-01-01 This collection of essays is the first serious attempt to conceptualise the transplantation of English migrants and culture in the New World as a diaspora

The English diaspora in North America Tanja Bueltmann, Donald MacRaild, 2016-12-05 Ethnic associations were once vibrant features of societies such as the United States and Canada which attracted large numbers of immigrants While the transplanted cultural lives of the Irish Scots and continental Europeans have received much attention the English are far less widely explored It is assumed the English were not an ethnic community that they lacked the alienating experiences associated with immigration and thus possessed few elements of diasporas This deeply researched new book questions this assumption It shows that English associations once were widespread taking hold in colonial America spreading to Canada and then encompassing all of the empire Celebrating saints days expressing pride in the monarch and national heroes providing charity to the national poor and forging mutual aid societies mutual were all features of English life overseas In fact the English simply resembled other immigrant groups too much to be dismissed as the unproblematic invisible immigrants

The English Diaspora in North America Tanja Bueltmann, Donald M. MacRaild, 2017 Ethnic associations were once vibrant features of societies such as the United States and Canada which attracted large numbers of immigrants While the transplanted cultural lives of the Irish Scots and continental Europeans have received much attention the English are far less widely explored It is assumed the English were not an ethnic community that they lacked the alienating experiences associated with immigration and thus possessed few elements of diasporas This deeply researched text questions this assumption It shows that English associations once were widespread taking hold in colonial America spreading to Canada and then encompassing all of the empire

Empire, migration and identity in the British World Kent Fedorowich, Andrew S. Thompson, 2015-11-01 The essays in this volume have been written by leading experts in their respective fields and bring together established scholars with a new generation of migration and transnational historians Their work weaves together the new imperial and the new migration histories and is essential reading for scholars and students interested in the interplay of migration within and between the local regional imperial and transnational arenas Furthermore these essays set an important analytical benchmark for more integrated and comparative analyses of the range of migratory processes free and coerced which together impacted on the dynamics of power forms of cultural circulation and making of ethnicities across a British imperial world

Between Dispersion and Belonging Amitava Chowdhury, Donald Harman Akenson, 2016-06-01 As a historical and religious term diaspora has existed for many years but it only became an academic and analytical concept in the 1980s and 90s Within its various usages two broad directions stand out diaspora as a dispersion of people from an original homeland and diaspora as a claim of identity that expresses a form of belonging and also keeps alive a sense of difference Between Dispersion and Belonging critically

assesses the meaning and practice of diaspora first by engaging with the theoretical life histories of the concept and then by examining a range of historical case studies Essays in this volume draw from diaspora formations in the pre modern Indian Ocean region read diaspora against the concept of indigeneity in the Americas reassess the claim for a Swedish diaspora interrogate the notion of an invisible English diaspora in the Atlantic world calibrate the meaning of the Irish diaspora in North America and consider the case for a global Indian indentured labour diaspora Through these studies the contributors demonstrate that an inherent appeal to globality is central to modern formulations of diaspora They are not global in the sense that diasporas span the entire globe rather they are global precisely because they are not bound by arbitrary geopolitical units In examining the ways in which academic and larger society discuss diaspora Between Dispersion and Belonging presents a critique of modern historiography and positions that critique in the shape of global history Contributors include William Safran University of Colorado Boulder James T Carson Queen s University Eivind H Seland University of Bergen Don MacRaild University of Ulster and Rankin Sherling Marion Military Institute the Military College of Alabama

Diasporas Professor Kim Knott, Doctor Sean McLoughlin, 2013-04-04 Featuring essays by world renowned scholars Diasporas charts the various ways in which global population movements and associated social political and cultural issues have been seen through the lens of diaspora Wide ranging and interdisciplinary this collection considers critical concepts shaping the field such as migration ethnicity post colonialism and cosmopolitanism It also examines key intersecting agendas and themes including political economy security race gender and material and electronic culture Original case studies of contemporary as well as classical diasporas are featured mapping new directions in research and testing the usefulness of diaspora for analyzing the complexity of transnational lives today Diasporas is an essential text for anyone studying working or interested in this increasingly vital subject

British and Irish Diasporas Donald MacRaild, Tanja Bueltmann, J. C. D. Clark, 2019-01-07 This book offers the first integrated study of the formation of diasporas from the islands of Ireland and Britain and explores how the examples and experiences of the constituent nations and peoples of those islands compare

Migration and the Origins of the English Atlantic World Alison Games, 1999 England's seventeenth century colonial empire in North America and the Caribbean was created by migration The quickening pace of this essential migration is captured in the London port register of 1635 the largest extant port register for any single year in the colonial period and unique in its record of migration to America and to the European continent Alison Games analyzes the 7 500 people who traveled from London in that year recreating individual careers exploring colonial societies at a time of emerging viability and delineating a world sustained and defined by migration The colonial travelers were bound for the major regions of English settlement New England the Chesapeake the West Indies and Bermuda and included ministers governors soldiers planters merchants and members of some major colonial dynasties Winthrops Saltonstalls and Eliots Many of these passengers were indentured servants Games shows that however much they tried the travelers from London were unable to recreate England in their overseas outposts They dwelled in chaotic precarious and hybrid societies where New World exigencies overpowered the force of custom Patterns of repeat and return migration cemented these inchoate colonial outposts into a larger Atlantic community Together the migrants stories offer a new social history of the seventeenth century For the origins and integration of the English Atlantic world Games illustrates the primary importance of the first half of the seventeenth century

Migrants of the British diaspora since the 1960s A. James Hammerton, 2017-07-21 This is the first social history to explore experiences of British emigrants from the peak years of the 1960s to the emigration resurgence of the turn of the twentieth century It explores migrant experiences in Australia Canada and New Zealand alongside other countries The book charts the gradual reinvention of the British diaspora from a postwar migration of austerity to a modern migration of prosperity It offers a different way of writing migration history based on life histories but exploring mentalities as well as experiences against a setting of deep social and economic change Key moments are the 1970s loss of Britons privilege in Commonwealth destination countries Thatcher's refugees in the 1980s and shifting attitudes to cosmopolitanism and global citizenship by the 1990s It charts a long process of change from the 1960s to patterns of discretionary and nomadic migration which became more common practice from the end of the twentieth century
