Student Study Guide to The Asian World, 600-1500 Roger Des Forges, John Major, 2005-10 The Christian doctrine of heaven has been a moral source of enormous power in western culture It has provided a striking account of the ultimate good in life and has for two millennia animated the hope that our lives can be fully meaningful Recently however the doctrine of heaven has lost much of its grip on the western imagination and has become a vague and largely ignored part of the Christian creed Not only have our hopes been redefined as a result but our very identity as human beings has been altered In this book Jerry L Walls argues that the doctrine of heaven is ripe for serious reconsideration He contends not only that the orthodox view of heaven can be defended from objections commonly raised against it but also that heaven is a powerful resource for addressing persistent philosophical problems not the least of which concern the ground of morality and the meaning of life Walls shows how heaven is integrally related to central Christian doctrines particularly those concerning salvation and tackles the difficult problem of why faith in Christ is necessary to save us from our sins In addition heaven is shown to illumine thorny problems of personal identity and to be an essential component of a satisfactory theodicy Walls goes on to examine data from near death experiences from the standpoint of some important recent work in epistemology and argues that they offer positive evidence for heaven He concludes that we profoundly need to recover the hope of heaven in order to recover our very humanity **Study Guide Student Workbook for Matilda** John Pennington, 2017-08-23 The Quick

Reading Families Rebecca L. Krug, 2018-09-05 Rebecca Krug argues that in the later Middle Ages people defined themselves in terms of family relationships but increasingly saw their social circumstances as being connected to the written word Complex family dynamics and social configurations motivated women to engage in text based activities Although not all or even the majority of women could read and write it became natural for women to think of writing as a part of everyday life Reading Families looks at the literate practice of two individual women Margaret Paston and Margaret Beaufort and of two communities in which women were central the Norwich Lollards and the Bridgettines at Syon Abbey The book begins with Paston s letters which were written at her husband s request and ends with devotional texts that describe the spiritual daughterhood of the Bridgettine readers Scholars often assume that medieval women s participation in literate culture constituted a rejection of patriarchal authority Krug maintains however that for most women learning to engage with the written word served as a practical response to social changes and was not necessarily a revolutionary act
