Patient medical information is contained within multiple electronic records systems in combination with financial and other types of data. This policy defines requirements for those components of information that comprise a patient's complete "*Legal Medical Record*."

## DEFINITIONS

***Medical Record:*** The collection of information concerning a patient and his or her health care that is created and maintained in the regular course of UC\_\_ business in accordance with UC\_\_ policies, made by a person who has knowledge of the acts, events, opinions or diagnoses relating to the patient, and made at or around the time indicated in the documentation.

The Legal Medical Record is a subset of the *Designated Record Set* and is the record that will be released for legal proceedings or in response to a request to release patient medical records. The Legal Medical Record can be certified as such in a court of law.
