Mining Tsar the Life And Times Of Leslie Urquhart:

Mining Tsar Kett Howard Kennedy, 1986-01 Reflecting Imperial Overstretch and New Realities Brian O'Sullivan, 2024-07-03 This book is the first comprehensive history of the British Trade Corporation which was constituted under a Royal Charter on 21st April 1917. Its charter was meant to last for sixty years but in 1926 after a turbulent existence of only nine years it was amalgamated with the Anglo Austrian Bank and absorbed into the Anglo International Bank. The corporation together with its two main subsidiaries the Levant Company and the National Bank of Turkey conducted business not only in Britain but in Russia, Turkey, the Middle East and in Continental Europe. Although the corporation was not an agent of empire it reflected Britain's imperialistic ambitions after the First World War. As a result it invested in some of the most unstable regions of the world. It was also severely affected by British foreign policy which was often misjudged and at times duplicitous, resulting in serious damage to British trade. Within five years of its launch the British Trade Corporation needed to be refinanced. The economic downturn in the early 1920s and ongoing hostilities in Eastern Europe and the Near East meant that it struggled to survive. Its difficulties reflected many of those faced by Britain in general after the war and the need to come to terms with the new realities of the post-war world. Despite its innovative attempt to address the perceived deficiencies in Britain's financial system especially in respect of industrial finance the British Trade Corporation has been largely ignored by financial historians. Based on substantial archival research this book rectifies this neglect and makes an important contribution to the financial history of interwar Britain.

The included works span the length of Johnny's career drawing on his extensive learning and practical engagement. They analyse the past and present while asking prescient questions about arbitration's future in a changing global context. The reader of Johnny's essays and other contributions will profit by his extraordinary legal insight and by the breadth and depth of his devotion to the arbitral process. The volume also gives a sense of his humanity, his warmth and wit. Loved by his colleagues, his students and indeed all those who came to know him, this volume is in celebration of the extraordinary achievements of this remarkable jurist, teacher and human being.

Consolidated Gold Fields in Australia Robert Porter, 2020-04-29 Consolidated Gold Fields was a major British mining house founded by Cecil Rhodes in 1892. Diversifying from its South African gold interests, the company invested widely during the following century. This included investments in the Western Australian gold

sector from the 1920s and exploration and mining activities elsewhere in Australia and the Territory of New Guinea. In the 1960s Consolidated Gold Fields Australia (CGFA) was formed. CGFA had ambitious plans and the financial backing from London to establish itself as one of the main diversified mining companies in Australia. Investments were held in the historic Mount Lyell Mining and Railway Company in Renison and it was one of the first groups to develop iron ore deposits in the Pilbara of Western Australia. It also acquired a major interest in mineral sands. While the London based Consolidated Gold Fields ceased to exist in 1989, taken over and dismembered by renowned corporate raider Hanson Plc, its Australian subsidiary renamed Renison Goldfields Consolidated (RGC) continued for another nine years as a diversified mining group before it suffered its own corporate demise facilitated by Hanson. CGFA and RGC were important participants in Australia's post World War II mining sector. This book is a history of a once great British mining finance house and its investments in Australia. Consolidated Gold Fields had a rich and broad history in Australia; its ultimate fate did not demonstrate its potential as an Australian mining company.

The Race to Save the Romanovs Helen Rappaport, 2018-06-26. In this international bestseller investigating the murder of the Russian Imperial Family, Helen Rappaport embarks on a quest to uncover the various plots and plans to save them, why they failed and who was responsible. The murder of the Romanov family in July 1918 horrified the world and its aftershocks still reverberate today. In Putin's autocratic Russia, the Revolution itself is considered a

crime and its anniversary was largely ignored In stark contrast the centenary of the massacre of the Imperial Family was commemorated in 2018 by a huge ceremony attended by the Patriarch of the Russian Orthodox Church While the murders themselves have received major attention what has never been investigated in detail are the various plots and plans behind the scenes to save the family on the part of their royal relatives other governments and Russian monarchists loyal to the Tsar Rappaport refutes the claim that the fault lies entirely with King George V as has been the traditional view for the last century The responsibility for failing the Romanovs must be equally shared The question of asylum for the Tsar and his family was an extremely complicated issue that presented enormous political logistical and geographical challenges at a time when Europe was still at war Like a modern day detective Helen Rappaport draws on new and never before seen sources from archives in the US Russia Spain and the UK creating a powerful account of near misses and close calls with a heartbreaking conclusion With its up to the minute research *The Race to Save the Romanovs* is sure to replace outdated classics as the final word on the fate of the Romanovs

From Empire to Eurasia Sergey Glebov,2017-05-15 The Eurasianist movement was launched in the 1920s by a group of young Russian migr s who had recently emerged from years of fighting and destruction Drawing on the cultural fermentation of Russian modernism in the arts and literature as well as in politics and scholarship the movement sought to reimagine the former imperial space in the wake of Europe s Great War The Eurasianists argued that as an heir to the nomadic empires of the steppes Russia should follow a non European path of development In the context of rising Nazi and

Soviet powers the Eurasianists rejected liberal democracy and sought alternatives to Communism and capitalism Deeply connected to the Russian cultural and scholarly milieus Eurasianism played a role in the articulation of the structuralist paradigm in interwar Europe However the movement was not as homogenous as its name may suggest Its founders disagreed on a range of issues and argued bitterly about what weight should be accorded to one or another idea in their overall conception of Eurasia In this first English language history of the Eurasianist movement based on extensive archival research Sergey Glebov offers a historically grounded critique of the concept of Eurasia by interrogating the context in which it was first used to describe the former Russian Empire This definitive study will appeal to students and scholars of Russian and European history and culture
