change built toward a mutual goal of prosperity As Du Toit conveys the motivation for reconciliation is the long term well being of one s own community as well as that of enemy groups Without ensuring the conditions in which one s enemy can flourish one s own community is unlikely to prosper sustainably

The Crisis of South African Foreign Policy Matthew Graham,2015-09-28 The emergence of a new democratic South Africa under Nelson Mandela was regarded as a high watermark for international ideals of human rights and democracy Much was expected of the ANC in power particularly that it would be able to translate its ideals into a coherent foreign policy for the African continent Yet its foreign policy since 1994 has been mired in accusations of incoherence contradiction and failure Here based on extensive archival research and interviews Matthew Graham offers new ways of interpreting South Africa s foreign policy by investigating the continuities and discontinuities of the ANC s international relations from exile to political power Charting the political intrigues during the country s transition from apartheid and the subsequent influences on Presidents Mandela and Mbeki *The Crisis of South African Foreign Policy* makes a vital contribution to our understanding of why post apartheid South Africa has failed to lead Africa on the world stage

Performative Democracy Elzbieta Matynia,2015-12-03 fresh appreciation of the events of 1989 as we approach their 20th anniversary in 2009 *Performative Democracy* explores a potential in political life that easily escapes theorists the indigenously inspired enacting of democracy by citizens Written by one who experienced an emerging public sphere within Communist Poland the book seeks to identify the conditions for performativity performing politics in public life It examines a broad spectrum of cultural social and political initiatives that facilitated the non violent transformation of an autocratic environment into a democratic one Examples of performativity range from experimental student theater through the engaged political thinking of dissident Adam Michnik the alternative culture and the Solidarity movement to the drama of the Round Table Talks and their striking parallels in South Africa and finally the post 1989 efforts of feminist groups and women artists to defend the recently won

right of free public discourse The book argues that performative democracy with its improvisational mode and imaginative solutions deserves a legitimate place in our broader reflections on democracy Matynia describes how two apparent miracles of recent history that communism in Poland was brought down without violence and that apartheid in South Africa was ended without a bloodbath were the results of hard work and a new approach to change that she calls performative democracy Matynia reveals amazing parallels between the drama of Poland's Round Table Talks in 1989 and the Truth Commissions in South Africa in 1994 Matynia describes how experimental student theater groups though subsidized by a totalitarian regime afraid of any authentic public life created little pockets of public space for free and meaningful expression that were augmented by uncensored underground publishing and further expanded by the Solidarity movement into a democratic society within the totalitarian state Matynia describes in a personal way how in the 1970s student theater groups planted the seeds of an authentic public sphere how underground publishers nurtured freedom of expression and social criticism and how after democratic elections women artists in the 1990s fought to sustain the newly won right to free public discourse Matynia traces in vivid human terms the democratic aspirations and practices that led to democratic change in Poland but went largely unnoticed by western media and policymakers
