Eloge De Lamour:

Everything Is Cinema Richard Brody, 2024-03-26 From New Yorker film critic Richard Brody *Everything Is Cinema* The Working Life of Jean Luc Godard presents a serious minded and meticulously detailed account of the lifelong artistic journey of one of the most influential filmmakers of our age The New York Times When Jean Luc Godard wed the ideals of filmmaking to the realities of autobiography and current events he changed the nature of cinema Unlike any earlier films Godard's work shifts fluidly from fiction to documentary from criticism to art The man himself also projects shifting images cultural hero fierce loner shrewd businessman Hailed by filmmakers as a if not the key influence on cinema Godard has entered the modern canon a figure as mysterious as he is indispensable In *Everything Is Cinema* critic Richard Brody has amassed hundreds of interviews to demystify the elusive director and his work Paying as much attention to Godard's technical inventions as to the political forces of the postwar world Brody traces an arc from the director's early critical writing through his popular success with *Breathless* to the grand vision of his later years He vividly depicts Godard's wealthy conservative family his fluid politics and his tumultuous dealings with women and fellow New Wave filmmakers *Everything Is Cinema* confirms Godard's greatness and shows decisively that his films have left their mark on screens everywhere

After Bataille Patrick Ffrench, 2017-07-05 Author of the obscene narrative *Story of the Eye* and of works of heretical philosophy such as *Inner Experience* Georges Bataille 1897-1962 is one of the most powerful and secretly influential French thinkers of the last century His work is driven by a compulsion to communicate an experience which exceeds the limits of communicative exchange and also constitutes a sustained focus on the nature of this compulsion *After Bataille* takes this sense of compulsion as its motive and traces it across different figures in Bataille's thought from an obsession with the thematics and the event of sacrifice through the exposure of being and of the subject to the necessary relation to others in friendship and in community In each of these instances *After Bataille* is distinctive in staging a series of encounters between Bataille his contemporaries and critics and theorists who extend or engage with his legacy It thus offers a vital account of the place of Bataille in contemporary thought

Germaine Tillion, Lucie Aubrac, and the Politics of Memories of the French Resistance Donald Reid, 2009-03-26 Germaine Tillion Genevieve de Gaulle Anthoinoz Lucie Aubrac and Raymond Aubrac were among a small number of French men and women who made the decision to resist early in the Occupation In the summer of 1940 Marc Bloch analyzed the society in which he lived in order to identify and affirm allegiance to a France truly at odds with that which was taking shape in Vichy Bloch died in the Resistance but his life would take on new meanings in the collective memories of postwar France Confrontation with the Aubracs account of their refusal to accept the unacceptable became another important way the French engaged with the Resistance and its legacy The acts Tillion took during the French Algerian War and de Gaulle Anthoinoz took when confronted with poverty in the France of the thirties glorious were of a piece with the radical nature of their earlier decision to resist Evocation of the Resistance provided a basis for France to

reconstitute itself with honor after the war Yet memory of the Resistance could also pose difficult issues for future generations Those who came of age in 1968 grappled with the memory of the intrepid resisters of the first years of the war whose decision to resist stood as an inspiration and a challenge Historians with the imperative to take the mandate to narrate the past from historical actors to make resisters figures of history developed complex relationships with those who had resisted The essays in this collection address how resisters made sense of the wartime and postwar world in terms of their resistance and how others made sense of the Resistance itself and its legacy by engaging with resisters and their histories

Jean-Luc Godard's Unmade and Abandoned Projects Michael Witt, 2025-10-30 This book offers the first study of the French Swiss filmmaker Jean Luc Godard's vast body of over 380 unmade unfinished and abandoned projects over the course of his career from the late 1940s to the 2020s While Godard is widely recognised as one of the most important and influential filmmakers of the post war period extremely little has been written about his largely invisible and unknown corpus of unrealised works This includes many unmade films videos and television programmes alongside a wide range of unfinished non audiovisual ventures such as plays books exhibitions a CD a camera a film journal and even an architectural maquette Drawing on extensive research on the surviving traces of these projects in archives and private collections Michael Witt's comprehensive survey establishes the extent and constitution of the Godardian corpus of unrealised and abandoned works for the first time and examines them in detail in six key perspectives literature cinema theatre television politics and history The volume includes in depth case studies of numerous major unfinished initiatives by Godard and his collaborators in locations around the globe France the Middle East the USA Quebec the People's Republic of Mozambique charts the extensive connections between his abandoned projects and his completed works casts in relief his creative process and offers a fresh way of thinking about and approaching his practice and oeuvre as a whole A full annotated list of his unrealised and abandoned projects is included as an appendix

The Legacies of Jean-Luc Godard Douglas Morrey, Christina Stojanova, Nicole Côté, 2014-06-18 The artistic impact of Jean Luc Godard whose career in cinema has spanned over fifty years and yielded a hundred or more discrete works in different media cannot be overestimated not only on French and other world cinemas but on fields as diverse as television video art gallery installation philosophy music literature and dance The Legacies of Jean Luc Godard marks an initial attempt to map the range and diversity of Godard's impact across these different fields It contains reassessments of key films like *Vivre sa vie* and *Passion* as well as considerations of Godard's influence over directors like Christophe Honor Contributors look at Godard's relation to philosophy and influence over film philosophy through reference to Wittgenstein Deleuze and Cavell and show how Godard's work in cinema interacts with other arts such as painting music and dance They suggest that Godard's late work makes important contributions to debates in memory and Holocaust Studies The volume will appeal to a non specialist audience with its discussions of canonical films and treatment of themes popular within film studies programs such as cinema and ethics But it will also attract academic

specialists on Godard with its chapters on recent works including *Dans le noir du temps* 2002 and *Voyage s en utopie* 2006 interventions in long running academic debates Godard the Holocaust and anti-Semitism and treatment of rarely discussed areas of Godard's work choreographed movement *The Virtual Life of Film* D. N. RODOWICK, David Norman Rodowick, 2009-06-30 As almost every aspect of making and viewing movies is replaced by digital technologies even the notion of watching a film is fast becoming an anachronism With the likely disappearance of celluloid film stock as a medium and the emergence of new media what will happen to cinema and to cinema studies In the first of two books exploring this question Rodowick considers the fate of film and its role in the aesthetics and culture of the twenty first century Jean-Luc Godard Bert Rebhandl, 2023-05-16 In this biography now translated into English for the first time Bert Rebhandl provides a balanced evaluation of the work of one of the most original and influential film directors of all time Jean Luc Godard 1930 2022 In this sympathetic yet critical overview he argues that Godard's work captured the revolutionary spirit of Paris in the late 1960s as no other filmmaker has dared and in fact reinvented the medium Rebhandl skillfully weaves together biographical details information about the cultural intellectual and cinematic milieu over the decades and descriptions of Godard's most significant films to support his assertion that the director was a permanent revolutionary always seeking new ways to create understand and comment on film within a larger context He views Godard as an artist consistently true to himself while never ceasing to change and evolve often in unexpected radical and controversial ways Rebhandl is known as a journalist with deep insights and lucid prose Despite the wealth of material to analyze he neither gets lost in the details nor offers a superficial gloss even while directly tackling such topics as the long standing charges of antisemitism against Godard and his oeuvre This volume will be welcome to both casual fans and dedicated devotees *Ranciere and Film* Paul Bowman, 2013-07-31 The first collection of critical essays on the film work of the philosopher Jacques Ranciere This book offers an exciting range of responses to and assessments of his contributions to film studies and includes a new piece by Ranciere himself on the subject **Encyclopedia of Modern French Thought** Christopher John Murray, 2013-01-11 In this wide ranging guide to twentieth century French thought leading scholars offer an authoritative multi disciplinary analysis of one of the most distinctive and influential traditions in modern thought Unlike any other existing work this important work covers not only philosophy but also all the other major disciplines including literary theory sociology linguistics political thought theology and more
