Puns W. D. Redfern,1986 [The Complete Pun Book](#) Art Moger,1979 Tapping hundreds of sources Moger has compiled an extensive collection of outrageous puns and punny jokes and highlights some pungent observations by Louis Untermeyer and Edwin Newman among others

The Little Book of Puns Alison Westwood,2011-11-29 In today s busy world where text speak seems to be the prevalent form of written English and the average teenager can barely form a proper sentence without using the numbers 4 or 8 as substitutes for letters is the pun becoming an endangered species As a society we have come to regard wordplay as old fashioned obvious humour because it hinges simply on one word having multiple definitions spellings or sound a likes It may not be controversial edgy or even topical but it actually takes a great deal of skill wit and general knowledge to come up with a decent pun not everyone can do it THE LITTLE BOOK OF PUNS explores the dying art of paronomasia and gives us a taste of the very best wordplay history has to offer It harks back to the heady days when intelligence was measured at dinner parties rather than behind a school desk when people still wrote letters instead of emails and actually read newspapers instead of checking out a website This book may as well exist in anti gravity because you ll find it almost impossible to put down

The New Pun Book Hardpress,2016-06-23 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

[The Rather Large Book of Puns](#) Benjamin Branfman,2015-04-18 Lots of pun books claim to have hundreds of puns but they really just offer a few dozen good ones mixed in with other types of jokes or quotes This book actually contains over 500 excellent and original puns It s real it s quality and it s rather large indeed What more do you need
