Responsibility Sharing in International Refugee Law Elizabeth Mavropoulou, 2025-09-25 Achieving a more fair and equitable sharing of refugee protection responsibilities between states has been a perennial challenge of the global refugee regime The Refugee Convention did not codify a legal obligation of responsibility sharing and as a result any assistance to refugee host states remains voluntary This responsibility sharing gap has in turn negatively impacted on the quality of refugee protection and on interstate relations by exacerbating existing inequalities undermining the fairness of the international refugee law regime This book offers a pragmatic yet principled solution to the responsibility sharing gap It puts down a detailed proposal for the long resisted UN Protocol on Responsibility Sharing which would codify a light package of responsibility sharing obligations by requiring states to contribute to refugee protection and solutions under a framework of common but differentiated responsibilities based on capabilities Building on the Global Compact on Refugees and drawing inspiration from international climate change law the book makes a compelling case for further multilateral law making

Svantesson, 2017-10-06 Internet jurisdiction has emerged as one of the greatest and most urgent challenges online affecting areas as diverse as e commerce data privacy law enforcement content take downs cloud computing e health cyber security intellectual property freedom of speech and cyberwar In this innovative book Professor Svantesson presents a vision for a new approach to Internet jurisdiction based on an extensive period of research dedicated to the topic The book demonstrates that our current paradigm remains attached to territorial thinking that is out of sync with our modern world especially but not only online Having made the claim that our adherence to the territoriality principle is based more on habit rather than on any clear and universally accepted legal principles Professor Svantesson advances a new jurisprudential framework for how we approach jurisdiction a framework that unites private and public international law He also proposes several other reform initiatives aimed at equipping us to solve the Internet jurisdiction puzzle In addition the book provides a history of Internet jurisdiction and challenges our traditional categorisation of different types of jurisdiction It places Internet jurisdiction in a broader context and outlines methods for how to properly understand and work with rules of Internet jurisdiction While *Solving the Internet Jurisdiction Puzzle* paints a clear picture of the concerns involved and the problems that needs to be overcome this book is distinctly aimed at finding practical solutions anchored in a solid theoretical framework Professor Svantesson argues that many of the Internet jurisdiction problems we face are due to a sleepwalking like acceptance of orthodox thinking *Solving the Internet Jurisdiction Puzzle* acts as a wake up call to this issue *Emptied Lands* Alexandre Kedar, Ahmad Amara, Oren Yiftachel, 2018-02-27 *Emptied Lands* investigates the protracted legal planning and territorial conflict between the settler Israeli state and indigenous Bedouin citizens over traditional lands in southern Israel Palestine The authors place this dispute in historical legal geographical and international comparative perspectives providing the first legal geographic analysis of the dead Negev doctrine used by Israel to dispossess and forcefully displace Bedouin inhabitants in order to Judaize the region The authors reveal that through manipulative use of Ottoman British and Israeli laws the state has constructed its own version of terra nullius Yet the indigenous property and settlement system still functions creating an ongoing resistance to the Jewish state *Emptied Lands* critically examines several key land claims court

rulings planning policies and development strategies offering alternative local regional and international routes for justice
