

A romantic close-up of a man and a woman. The man is on the left, leaning towards the woman on the right. They are both looking down, creating a sense of intimacy. The image is heavily tinted with a blue color, giving it a moody and ethereal feel. The woman's hand is gently touching the man's neck. The overall composition is soft and focused on the couple's faces and hands.

Zeitlin, 2007-06-30 The phantom heroine in particular the fantasy of her resurrection through sex with a living man is one of the most striking features of traditional Chinese literature Even today the hypersexual female ghost continues to be a source of fascination in East Asian media much like the sexually predatory vampire in American and European movies TV and novels But while vampires can be of either gender erotic Chinese ghosts are almost exclusively female The significance of this gender asymmetry in Chinese literary history is the subject of Judith Zeitlin's elegantly written and meticulously researched new book Zeitlin's study centers on the seventeenth century one of the most interesting and creative periods of Chinese literature and politically one of the most traumatic witnessing the overthrow of the Ming the Manchu conquest and the subsequent founding of the Qing Drawing on fiction drama poetry medical cases and visual culture the author departs from more traditional literary studies which tend to focus on a single genre or author Ranging widely across disciplines she integrates detailed analyses of great literary works with insights drawn from the history of medicine art history comparative literature anthropology religion and performance studies The Phantom Heroine probes the complex literary and cultural roots of the Chinese ghost tradition Zeitlin is the first to address its most remarkable feature the phenomenon of verse attributed to phantom writers that is

authors actually reputed to be spirits of the deceased She also makes the case for the importance of lyric poetry in developing a ghostly aesthetics and image code Most strikingly Zeitlin shows that the representation of female ghosts far from being a marginal preoccupation expresses cultural concerns of central importance
