The Ghost of Totalitarianism Martín Grassi, 2024-09-13 Martin Grassi deconstructs the totalitarian paradigm underlying Western political and theological discourses by a critical examination of the concept of spirit pneuma This notion plays a paramount role in such Western discourses as biology cosmology politics and theology for it is the principle that turns a plurality of elements into a systematic unity Christian political theology finds in the Holy Spirit the principle of efficacy of God s economy of redemption which has been ultimately defined as the realization of the Kingdom of God as a perfect and unified political system under the One Ruler Only through a deconstruction of this semantic performance of the Spirit are we to look for an alternative understanding of God and a Trinitarian dynamics that could stress singularity and relationality without reducing community to a merely organic totality
