

Gun Control in America Essay

Gun control recently has become a more serious problem in the eyes of the government. It is true that guns kill people, but so do bombs and car crashes. Guns do not shoot themselves, someone has pull the trigger. The problem with guns is not that they exist, but that people have started to misuse them more and more. Taking away guns would cause more problems than keeping them would. Guns are not just used for harming people, hunting also requires guns. Hunting is a very popular hobby in America and taking them away would cause a massive uproar.

The second amendment states that we have the right to bear arms, by taking guns away the government would be taking away one our basic human rights. Also, guns are misused by criminals; these people will just find a new way to hurt others if the guns are taken away. I do not believe guns should be taken away from us, rather there should be stricter laws on who can buy guns. Guns are only seen as bad negative things that need to be banned, but people seem to forget that guns were first invented to protect ourselves from enemies. Now just because people want to use them for bad reasons, the government wants to take them away from everyone.

By taking them away however, you are also taking away some peoples hobby. Hunting requires guns and is a very popular hobby. Over 12.5 million people in this country hunt ("Hunting"). That means if the government takes away guns from over 12 million people. That would not go over well with the people who like to hunt. Hunters also do not just use guns to hunt animals, Gary Lewis an avid hunter and outdoors man said "I thought about my dad teaching me how to shoot a .22 rifle. I thought about the dark, lonely night when the presence of a gun kept me safe when there was no one else to come to my aid.

Then I thought about the men and women who have paid with their lives to earn and keep freedom for our republic. " He sees guns as a way to protect our country and to keep us safe at night, not to kill or harm people. Guns are a right given to us at the founding of our country. The second amendment says that we have the right to bear arms. This right was given when the constitution was written and has been around since the founding of our country. Taking away this right is wrong and would go against what the founding fathers created so many years ago.

Some think this right is only for military use and not for the common person but "the court explains that all citizens are the militia; the Second Amendment is an individual right, just like every other right protected in the Bill of Rights, and is independent of membership in any organized group or military unit" (MacBrodaigh). This is saying that the people of America are the militia and just because they do not openly fight for our country does not mean they do not get the right to protect themselves and their families from harmful persons. Guns are only misused by criminals, people who break the

Guns, Gun Control, and Elections Harry L. Wilson, 2007 Gun related violence remains an intractable problem despite a decline in the past decade Some believe the solution lies in stricter gun control laws while others think these measures would be ineffective or counter productive **Guns Gun Control and Elections** examines current gun control policy and explains how it was adopted by discussing the roles and interactions of elected officials interest groups political parties and the public Original research on media coverage and public opinion as well as a chapter on state policy Virginia make the book both informative and accessible The book focuses on the utility of gun policy and its discussion of policy impact is grounded in real world politics The author highlights the importance of gun control in the presidential elections of 2000 and 2004 as well as in some U S Senate and statewide campaigns

Gun Control in the United States Gregg Lee Carter, 2017-01-23 This up to date second edition work will stimulate and clarify readers thinking on the key issues surrounding guns in the United States especially on the debate over gun control Most public debate and discussion about guns in U S society is rarely guided by research not surprising as most individuals have a personal opinion on this highly inflammatory topic based on their upbringing or personal experiences Additionally most research about gun use in America is confusing and contradictory making it difficult for citizens to gain much from their attempts to investigate the topic objectively This book offers concise understandable coverage of all aspects of the issue including incidence of gun violence gun control gun rights government regulation legislation and court decisions gun organizations for gun control and for gun rights gun enthusiast subcultures for example hunters target shooters and collectors and U S attitudes toward guns Many of the covered topics are placed in historical and cross cultural perspective The new edition of **Gun Control in the United States A Reference Handbook** enables the reader to navigate and interpret the research to become sufficiently educated on any specific aspect of the gun issue to make an informed decision for example whether to support stricter or more lenient gun control whether to become a gun owner whether to support a particular political party or candidate or whether to develop or to refine a particular philosophy regarding guns Other aspects of the contemporary gun debate that are addressed include whether the Supreme Court's ruling that the Second Amendment guarantees an individual right will withstand future challenges whether the strong gun regulations used in Europe would be effective and applicable in reducing gun violence in the United States and whether the diversity explosion created by the high rate of immigration from countries where guns are strictly controlled will soon change the politics of the U S gun control debate
