Guyana Fragile Frontier Loggers Miners And:

Guyana, Fragile Frontier Marcus Colchester,1997 Guyana, Fragile Frontier Marcus Colchester,1997 Examines three environmental issues in Guyana gold mining logging of tropical forests and abuse of the indigenous people the Amerindians Describes the role of foreign enterprises in exploiting the country s natural resources Guyana Junction. Globalisation, localisation, and the production of East Indianness Johannes Gerrit de Kruijf,2006 Guyana Barry Munslow,2019-06-04 First published in 1998 this volume uses Guyana as an excellent comprehensive case study to examine various sectors operations effects upon the environment and the ways in which the sector can impact upon the vitality and development potential of other sectors The authors attempt to demonstrate how it is possible to adjust current sectoral activities for improved resource utilisation They begin in the interior looking at mining and forest resource exploitation Attention then moves towards the coast looking at agriculture fishing human settlement and service provision A review of industry transport and energy follows before examining biodiversity tourism and the Amerindian community Finally a detailed analysis is presented of the challenges to be faced in devising a sustainable development national strategy Living at the Borderlines Cynthia Barrow-Giles,Don D. Marshall,2003 The idea that the Caribbean could be devolving downward in wealth function and sovereignty has become a recurrent theme in both academic and popular literature By focusing on some of the current issues facing Caribbean nation states the editors and contributors to this volume hope to inform and contribute to the ongoing debate on the broad themes of Sovereignty and Development and the prospects for survival of Caribbean nation states in a globalised world While some of the papers seek to describe and analyse the range and complexity of the challenge to national sovereignty and public policy autonomy others focus on issues relating to small country size gender and ethnic tensions security constitutional reform and regional integration The result is a balanced perspective the contributors do not gloss over the problem faced by the region At the same time they do not present a hyper pessimistic picture of Caribbean development prospects What gives the collection a particular dynamism is the way in which the authors have challenged the terrain of political possibilities traditionally defined for small peripheral societies Indigenous Intellectual Property Rights Mary Riley,2004-08-13 Riley and her group of expert contributors supply a unique set of worldwide case studies and policy analyses as guidance for indigenous communities and their partners in attempting to protect their intellectual property Much of the existing literature already addresses the poor fit between western regimes of intellectual property rights and the requirements for safeguarding indigenous cultural resources The manuscript gets beyond these negative claims in depicting positive efforts at protecting indigenous knowledge and cultures notwithstanding these legal limitations The reader is exposed to a wide array of legal political organizational and contractual strategies deployed by indigenous groups to protect their intellectual property interests It will be an important resource for social scientists advocates for indigenous and human rights bioprospecting indigenous leaders NGOs and law libraries Edges, Fringes, Frontiers Thomas Henfrey,2018-09-14

Based on an ethnographic account of subsistence use of Amazonian forests by Wapishana people in Guyana Edges Frontiers Fringes examines the social cultural and behavioral bases for sustainability and resilience in indigenous resource use Developing an original framework for holistic analysis it demonstrates that flexible interplay among multiple modes of environmental understanding and decision making allows the Wapishana to navigate socio ecological complexity successfully in ways that reconcile short term material needs with long term maintenance and enhancement of the resource base *The Cultural and Political History of Guyana* Ivan A. Ross,2021-09-21 The history of the Indigenous people enslaved Africans indentured Portuguese Chinese and Indian laborers provides an in depth view of the evolution of the Guyanese people It provides evidence of their strong cultural identity and reveals their ambitions sense of direction and perseverance to strive for well being and happiness in the best possible life A chain of events began in 1953 when British Guiana elected its first native born leader Dr Cheddi Jagan The British Prime Minister Winston Churchill suspended British Guiana s Constitution ordered the dissolution of the Government and imprisonment of the elected leader his wife and members of his cabinet as they were not compatible to Churchill s taste The United States of America had difficulty appreciating how different forms of government and economic systems are applied in different countries In 1961 President John F Kennedy ordered his Central Intelligence Agency to subvert the elected leader of British Guiana The leader fell and the CIA s men accomplishing their task moved on to another Thirty years later the fallen leader was again democratically elected to lead his country President Kennedy s ruthless subversion of democracy became the policy for subsequent elections of using the divisive concept of racial and ethnic segregations The racial and ethnic prejudices have affected the distribution of power opportunity and wealth and creating enduring social stratifications The children became adults with a poor understanding of how imperialism the ancestral slaves and indentured laborers influenced their lives and their country and the powerful and lasting effects they have **Extractivism and Labour in the Caribbean** Dennis C. Canterbury,2023-12-01 This book explores the impact of resource extraction and the dynamics of great powers competing for natural resources in the Caribbean The book analyzes labour capital relations between China the United States the European Union and Russia in the Caribbean as competition increases with the arrival of non traditional sources of foreign investments in infrastructure from the East Chapters assess these dynamics through varying historical and current forms of worker community and organization resistance in the Caribbean s extractive industries from the 1970s to the present In doing so the book critically analyzes the interplay of extractive capital with labour unions community organizations management and the state particularly regarding the struggle for higher wages improved working conditions and the broader issues of extractive capitalism and underdevelopment dispossession social exclusion and environmental degradation The first book on extractivism and labour in the Caribbean and a major contribution to critical development studies literature it will appeal to policymakers as well as students and scholars in the fields of development studies development economics sociology politics and international relations

Transboundary Protected Areas Yale University, 2003-05-21 Top researchers share their expertise on conservation and sustainability in areas that extend across national borders This informative and insightful book examines strategies being used by governments and NGOs to protect wild areas that cross national borders and cultural linguistic and socioeconomic boundaries In addition to presenting case studies from five continents Transboundary Protected Areas The Viability of Regional Conservation Strategies provides several theoretical overviews that suggest viable approaches to conserving biodiversity in these difficult to protect areas From the editors Historically the borders of protected areas have been defined by convenient social political or proprietary boundaries rather than by ecological boundaries Today many scientists and practitioners are in agreement that the world s biodiversity and other natural resources can best be conserved on an ecosystem or regional scale which may or may not be consistent with political boundaries Efforts to protect land on an ecosystem scale have led to the creation of numerous transboundary protected areas also referred to as international peace parks or transfrontier conservation areas These areas which often cross linguistic socioeconomic and cultural boundaries as well as national borders represent regional conservation at its most complex While many scientists and practitioners promote eco regional approaches to conservation many also advocate pursuing conservation goals on local or community scales Conservationists therefore endeavor to achieve a seemingly incongruous mandate to pursue top down regional goals using bottom up local approaches Transboundary Protected Areas The Viability of Regional Conservation Strategies addresses the vital questions associated with this mandate Is it reasonable and realistic to approach regional conservation this way What strategies have been employed to achieve these goals and how successful have they been Who benefits from transboundary conservation and what are the costs Reflecting the information delivered at the 2001 conference of the Yale chapter of the International Society of Tropical Foresters ISTF this book provides you with the best answers available at this time The contributors include social and natural scientists resource managers policymakers and community leaders Transboundary Protected Areas The Viability of Regional Conservation Strategies brings them together for an interdisciplinary exploration of these questions and other critical issues related to conservation in and around transboundary protected areas Specific cases that are thoughtfully examined in Transboundary Protected Areas The Viability of Regional Conservation Strategies include the public reaction to the Yellowstone to Yukon Y2Y Conservation Initiative the ways in which the establishment of southern Africa s existing and proposed Transfrontier Conservation Areas TFCAs can help conserve biodiversity aid socioeconomic development and promote international peace development and conservation efforts in the Maloti Drakensberg mountains of southern Africa which straddle the borderlands between South Africa and Lesotho the cultural aspects of protected area management in Venezuela and Guyana the impact of transfrontier collaboration as evidenced by the International Gorilla Conservation Programme IGCP in the Virunga Bwindi region of Africa Uganda Rwanda and the Democratic Republic of Congo how the Nepalese have addressed the problems of poaching commercial logging illegal harvesting and smuggling of

forest products and illegal trade of wildlife and wildlife products in the eastern Himalayas by implementing a transboundary biodiversity conservation initiative Helpful maps tables and figures make geographical regions and conservation information easy to assimilate The Rights of Indigenous Peoples and Maroons in Suriname Ellen-Rose Kambel,Fergus MacKay,1999 This volume describes and analyses the Surinamese legal system as it relates to the rights of indigenous peoples and Maroons The rights of these peoples have not been systematically addressed in this context before nor have they ever been the subjects of extensive academic research The book provides a good starting point for discussions of the rights of indigenous peoples and Maroons hopefully leading to a full recognition of their rights in Suriname *Communities and Conservation* J Peter Brosius,Anna Lowenhaupt Tsing,Charles Zerner,2005-07-14 A group of distinguished environmentalists analyze and advocate for community based natural resource management CBNRM They offer an overview of this transnational movement and its links between environmental management and social justice agendas This book will be valuable to instructors practitioners and activists in environmental anthropology justice and policy in cultural geography political ecology indigenous rights conservation biology and community based cultural resource management **Justice in the Forest** Marcus Colchester,2006-01-01 **Communities and Conservation** Peter J. Brosius,Anna Lowenhaupt Tsing,Charles Zerner,2005-07-21 The distinguished environmentalists in this collection offer an in depth analysis and call to advocacy for community based natural resource management CBNRM Their overview of this transnational movement reveals important links between environmental management and social justice agendas for sustainable use of resources by local communities In this volume leaders who have been instrumental in creating and shaping CBNRM describe their model programs the countermapping movement and collective claims to land and resources legal strategies for gaining rights to resources and territories biodiversity conservation and land stabilization priorities and environmental justice and minority rights This book will be of value to instructors practitioners and activists in anthropology cultural geography environmental justice environmental policy political ecology indigenous rights conservation biology and CBNRM *Wapishana Ethnoecology* Thomas Henfrey,2018-05-25 This landmark monograph in ethnoecology is now available in print format for the first time Based on long term fieldwork in Guyana during 1998 1999 and 2000 it examines relationships between the ecological knowledge of Wapishana hunters and equivalent areas of ecological science It places this in the ethnographic context of Wapishana settlement subsistence and symbolism and the wider context of the political ecology of Guyanas economic liberalisation and the consequent exposure of the indigenous peoples of Guyanas Rupununi region to extractive industries and international conservation interests for the first time The result is a robust argument grounded in extensive data and analysis for alternative trajectories in conservation and international development rooted in the skills knowledge and interests of indigenous users and custodians of biodiversity **A World of Insecurity** Thomas Hylland Eriksen,Ellen Bal,Oscar Salemink,2010-02-02 Human security is a key element in the measure of well being and a hot topic in anthropology

and development studies *A World of Insecurity* outlines a new approach to the subject The contributors expose a contradiction at the heart of conventional accounts of what constitutes human security namely that without taking non material considerations such as religion ethnicity and gender into account discussions of human security academically and in practical terms are incomplete inconclusive and deeply flawed A variety of compelling case studies indicate that in fact material security alone cannot adequately explain or fully account for human activity in a range of different settings and exposed to a variety of different threats This forceful book will expand and deepen the entire concept of human security in the process endowing it with political relevance It is an essential read for students of development studies and anthropology

Sexing the Caribbean Kamala Kempadoo, 2004 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company *Conservation and Mobile Indigenous Peoples* Dawn Chatty, Marcus Colchester, 2025-05-01 The second edition of this remarkable volume updates the immense advances in policy and soft international law with regards to the rights of mobile indigenous peoples in conservation The contributors to this book examine the interface between conservation and indigenous communities who are forced to move or settle elsewhere to accommodate environmental policies and biodiversity concerns The case studies investigate successful and not so successful community managed projects in Africa the Middle East South and SouthEastern Asia Australia and Latin America **Entangled Edens** Candace Slater, 2002 The skill with which Slater combines various levels and modalities of narrative utilizing her personal experience as a colorful unifying thread is truly remarkable Antonio Candido author of *Antonio Candido On Literature and Society* Howard S Becker editor A very important book that quite gracefully elegantly and persuasively moves beyond the usual myth and history format to put at its center stories about the Amazon and the people who tell them *Entangled Edens* persuasively argues that the Amazon can only be grasped understood and come to terms with through its myths and stories It addresses a very real failing of modern environmentalism which for all its virtues tends to dehumanize and metaphorically depopulate when it does not villainize populations that do share its concerns or share them in very different ways Instead of forcing us to choose between land and people Slater uses the stories and the people who tell them to rethink human relations with nature and each other Richard White author of *The Organic Machine The Remaking of the Columbia River* Elegant erudite profoundly serious *Entangled Edens* is a source of inspiration and knowledge for the reader interested in the Amazon Without the cultural tradition and the life experience of Amazonia s people any analysis of the Amazon risks becoming inconsequential or opportunistic This is one of the powerful messages of this important reflection on the Amazon whose greatest riches are ultimately its people Candace Slater has written a book that will last Milton Hatoum author of *The Tree of the Seventh Heaven* 1994 and *The Brothers* 2002 **The Social Organization of Policy** Lauren E. Eastwood, 2013-11-05 This book provides a specific case study based upon direct research with UN processes which enables the reader to situate larger theoretical arguments regarding civil society globalization and sustainable development within the context of the

actual activities of practitioners working within the UN forest policy making arena
