Historical Social Psychology Psychology Revivals:

Historical Social Psychology Kenneth Gergen, Mary Gergen, 2014-01-27 The vast majority of research in social psychology focuses on momentary events an attitude is changed dissonance is reduced a cognition is primed and so on Little attention is paid to the unfolding of events over time to social life as an ongoing process in which events are related in various ways as life unfolds Originally published in 1984 *Historical Social Psychology* opens a space for theory and research in which temporal process is central Contributors to this broad ranging work provide a rich range of perspectives from the theoretical to the methodological from micro sequences to the life span and from contemporary history to the long dur e Together these authors set the stage for a major shift in the focus of social psychological inquiry *Historical social psychology* Kenneth J. Gergen, 1984 Historical Social Psychology Kenneth J. Gergen, Mary M. Gergen, 1984-01-01 **The Crisis in Modern**

Social Psychology (Psychology Revivals) Ian Parker, 2013-10-18 In the late 1960s a crisis erupted in social psychology with many social psychologists highly critical of the old paradigm laboratory experimental approach Originally published in 1989 *The Crisis in Modern Social Psychology* was the first book to provide a clear account of the complex body of work that is critical of traditional social psychological approaches Ian Parker insisted that the crisis was not over showing how attempts to improve social psychology had failed and explaining why we need instead a political understanding of social interaction which links research with change Modern social psychology reflects the impact of structuralist and post structuralist conceptual crises in other academic disciplines and Parker describes the work of Foucault and Derrida sympathetically and lucidly making these important debates accessible to the student and discussing their influence He assesses the responses from both mainstream social psychology and from avant garde textual social psychology to the influx of these radical ideas and discusses the promises and pitfalls of a post modern view of social action *The Social Psychology of Religion*

(Psychology Revivals) Michael Argyle, Benjamin Beit-Hallahmi, 2013-11-26 Originally published in 1975 this book is a completely rewritten revised version of Michael Argyle s standard work *Religious Behaviour* first published in 1958 A great deal of new research had appeared since that date which threw new light on the nature and origins of religious behaviour beliefs and experience Trends in religious activity in Britain and the United States since 1900 and the state of religion in these two countries at the time are examined Evidence is presented on the origins of religious activity including the effects of stress drugs meditation evangelistic meetings personality variables and social class Other studies examine the effects of religion for example on mental and physical health political attitudes racial prejudice sexual behaviour morals and the relation between religion and scientific and other achievements The findings are used to test the main theories about religion which have been put forward by psychologists and other social scientists such as Freud s father projection theory cognitive need theories and deprivation compensation theories **The Social Psychology of Social Movements (Psychology**

Revivals) Hans Toch, 2013-11-26 The social movements that Professor Toch examines in this book originally published in

1966 range from the Black Muslims to food faddists and the founders of these movements range from Hitler to Joan of Arc Why do people join social movements How do such movements serve the needs of their members and what unique social problems do they cause What are the typical consequences of membership What gives rise to social movements and how can we evaluate them In *The Social Psychology of Social Movements* Hans Toch provides answers to these questions It is impossible to avoid in a study of this sort the universal human implications of social movements the latent tragedy and despair which involvement in such collective action implies The humour adversity and pathos is equally evident in many of the examples which Professor Toch describes But he provides a sympathetic objectivity and is at pains to provide a systematic psychological survey of large ideologically orientated groups and their members in general *The Psychology of the Methodist Revival* Sydney George Dimond, 1926 *Revival: Servants of Post Industrial Power* (1979) Michael Rose, 2017-07-28 This title was first published in 1979 Deftly combining an analysis of socio economic change and social institutions with political commentary intellectual biography and theoretical critique Michael Rose identifies the hidden similarities of the different currents in sociologie du travail and accounts for the popularity of such bold but fragile notions as Mallet's new working class or Touraine's post industrial society Simultaneously the relation between sociologie du travail and the state management and politics is defined and evaluated Finally Rose discusses the work of the new generation of investigators emerging after the crisis point of 1968 His conclusions are relevant not only for the many English speaking social scientists who have been rediscovering the problems of the labour process but for students of industrial relations intellectual history Marxism and modern French society *Cross-cultural Differences in Perspectives on the Self* Virginia Murphy-Berman, John J. Berman, 2003-01-01 *Cross Cultural Difference in Perspectives on the Self* features the latest research in a dynamic area of inquiry and practice Considered in these pages are cross cultural differences in the idea of the person and in models of balancing obligations to the self family and community Revisiting and questioning the concepts of self and self worth the authors investigate the extent to which factors traditionally associated with psychological effectiveness intrinsic motivation assuming personal responsibility for one's actions and feeling in control unique hopeful and optimistic are culturally bound Hazel Markus and Shinobu Kitayama consider cultural differences in models of psychological agency Joan Miller critiques the meaning of the term agency analyzing the extent to which many popular theories in psychology rest on rather narrow Western models of behavior and effective functioning Steven Heine calls into question the presumed universality of some forms of cognitive processing Sheena Iyengar and Sanford DeVoe apply a cross cultural perspective to better understand intrinsic and extrinsic motivation and the value of choice Kuo shu Yang questions the universality of the pervasive and popular theory of self actualization formulated by Abraham Maslow and finally Ype Poortinga reexamines not only the cultural boundaries of theory but also the very meaning of the concept of culture itself ***Boundaries of the Mind*** Robert A. Wilson, 2004-06-28 Where does the mind begin and end Most philosophers and cognitive scientists take the view

that the mind is bounded by the skull or skin of the individual Robert Wilson in this provocative and challenging new book provides the foundations for the view that the mind extends beyond the boundary of the individual Written with verve and clarity this ambitious book will appeal to a broad swathe of professionals and students in philosophy psychology cognitive science and the history of the behavioral and human sciences
