What state gained power after the period of Warring States? Who ruled? How did Qin Shihuangdi create a strong central government? How did Qin Shihuangdi unify China? How did Qin Shihuangdi help protect China and increase its wealth? Despite the positive effect Qin Shihuangdi had on China, he was viewed as an oppressor. Why? In your own words, explain why the following groups opposed him: aristocrats scholars farmers Why did the Qin dynasty fall so shortly after Qin Shihuangdi's death?	The state of Qin, ruled by Qin Shihuangdi, gained power after the Period of Warring States. Qin Shihuangdi ruled by Legalism, and created a strong central government by appointing censors, government officials, to ensure that everyone's job was being done. Qin Shihuangdi - created one national currency. - created a canal to connect the Yangtze River to the city of Guangzhou. - The canal was used to ship supplies to troops. Several rulers of Northern China warded off the Xiongnu nomads of the Gobi by building walls. These walls were then connected and strengthened to create the Great Wall of China. Qin Shihuangdi affected many different class members negatively, unappealing to his people, causing them to rebel. - Aristocrats had their power reduced. - Scholars were angered because their writings had been burned. - Farmers were forced to help construct the Great Wall. Qin Shihuangdi was not favored, so four years after his death, his dynasty was discontinued by a rebellion in 210 BCE.
