Marion,2018-10-15 From the 1920s Afghanistan maintained a small air arm that depended heavily upon outside assistance Starting in 2005 the United States led an air advisory campaign to rebuild the Afghan Air Force AAF In 2007 a formal joint combined entity led by a U S Air Force brigadier general began air advisor work with Afghan airmen Between 2007 and 2011 these efforts made modest progress in terms of infrastructures personnel and aircraft accessions and various training courses But by 2010 advisors increasingly viewed AAF command and control C2 as a problem area that required significant improvement if a professional air force was to be built In the spring of 2011 major institutional changes to AAF C2 procedures were being introduced when nine U S air advisors were killed The attack was the worst single incident loss of U S Air Force personnel in a deployed location since 1996 and the worst insider attack since 2001 From the day of that tragic event the cultural chasm between Afghanistan and the West became more apparent This dilemma continues with no end in sight to an air advisory mission of uncertain long term value **Cottrell-Brashear Family Linage** TC Cottrell,2017-12-19

DEMOCRATIC EMPIRE DEMOCRATIC EMPIRE The United States Since 1945 Democracy and empire often seem like competing even opposing concepts And yet since the end of World War II the United States has integrated elements of both in the process of becoming a dominant global power Democratic Empire The United States Since 1945 explores the way democracy and empire have converged and been challenged both at home and abroad surveying the nation s recent cultural political and economic history This account pays particular attention to mass media the fine arts and intellectual currents in the era of the American Dream Concise and engagingly written Democratic Empire presents a unique analysis of US history since 1945 and the egalitarian and imperial forces that have shaped contemporary America **Deutsche Bank: The**

Global Hausbank, 1870 - 2020 Werner Plumpe, Alexander Nützenadel, Catherine Schenk, 2020-03-05 A comprehensive history of one of the major players in the world of international finance Over the course of its 150 year history Deutsche Bank has established itself as a major player in the world of international finance but has also been confronted by numerous challenges that have changed the face of Europe from two world wars to the rise and subsequent fall of communism In this major work on the bank s history Werner Plumpe Alexander Nützenadel and Catherine R Schenk deliver a vibrant account of the measures the bank undertook in order to address the profound upheavals of the period as well as the diverse and unusual demands it had to face These included the First World War which brought the world s first period of globalization to a sudden and dramatic end but also the development of the predominantly national framework within which the bank had to operate from 1914 until the fall of the Berlin Wall in 1989 More recently the focus has shifted back to European and global activities with Deutsche Bank forging new paths into the Anglo American capital markets business so opening another extraordinary chapter for the bank

The Presidency of Barack Obama Julian E. Zelizer, 2018-03-13 An original and engaging account of the Obama years from a group of leading political historians Barack Obama s election as the first African American president seemed to usher in a new era and he took office in 2009 with great expectations But by his second term Republicans controlled Congress and after the 2016 presidential election Obama s legacy and the health of the Democratic Party itself appeared in doubt In *The Presidency of Barack Obama* Julian Zelizer gathers leading American historians to put President Obama and his administration into political and historical context These writers offer strikingly original assessments of the big issues that shaped the Obama years including the conservative backlash race the financial crisis health care crime drugs counterterrorism Iraq and Afghanistan the environment immigration education gay rights and urban policy Together these essays suggest that Obama s central paradox is that despite effective policymaking he failed to receive credit for his many achievements and wasn t a party builder Provocatively they ask why Obama didn t unite Democrats and progressive activists to fight the conservative counter tide as it grew stronger Engaging and deeply informed *The Presidency of Barack Obama* is a must read for anyone who wants to better understand Obama and the uncertain aftermath of his presidency Contributors include Sarah Coleman Jacob Dlamini Gary Gerstle Risa Goluboff Meg Jacobs Peniel Joseph Michael Kazin Matthew Lassiter Kathryn Olmsted Eric Rauchway Richard Schragger Paul Starr Timothy Stewart Winter Thomas Sugrue Jeremi Suri Julian Zelizer and Jonathan Zimmerman
