Meyer,Alvin P. Lehnerd,1997-03-05 Most companies know that long term success does not hinge on any single product but on a continuous stream of value rich products that target growth markets Yet many firms inexplicably develop one product at a time and by doing so fail to embrace commonality compatibility standardization or modularization among different products and product lines At last in this timely book Marc H Meyer and Alvin P Lehnerd provide a formula for turning products into profits enabling companies to design technologically superior products more easily Their solution is in two words PRODUCT PLATFORMS They argue that firms must focus their energies on developing families of products simultaneously which share common components and technology The authors describe how the champions of product development separate themselves from less sophisticated companies by building entire families of strong products from a single platform of common product structures technologies and automated product processes These successful companies recognize and respond to new market opportunities by integrating core skills and technology in the form of new products In this easy to read and practical book the authors masterfully elucidate this dynamic and forward thinking strategy which enables companies to develop innovative products faster more cheaply and with less effort Drawing on in depth case studies and personal experience with successful companies such as Hewlett Packard EMC Black manufacturing in both consumer and industrial markets software firms and Internet information services providers This clear prescription for transforming the bottom line by aggressively managing product development and innovation will become required reading for large and small corporations alike including entrepreneurs all of whom depend on the excellence of their new products for growth      **PC Mag** ,1987-04-28 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology      *PC Mag* ,1999-09-01 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology
