

> Paper 1 (SL and HL) markscheme

1 The foundations of economics

Core (SL and HL)

Chapter 1 has only Part (a) questions.

1.4 a Answers may include:

- Definitions: scarcity, opportunity cost, choice, production possibilities
- Explanation: Production on the *PPC* presupposes that all resources are used fully and efficiently, which cannot occur in the real world. Therefore production will take place somewhere inside the curve. The point of production illustrates the extent of unemployment and inefficiency, while points outside the curve are unattainable. This therefore illustrates scarcity of resources in relation to unlimited human needs and wants. Scarcity forces choices that involve opportunity costs, which are central concepts in economics. The model therefore does have usefulness.

HL only

Chapter 1 has no HL only questions that are examined in Paper 1.

2 Competitive markets: Demand and supply

Core (SL and HL)

Chapter 2 has only Part (a) questions at SL, but both Part (a) and Part (b) questions at HL.

2.4 a Answers may include:

- Definitions: demand, quantity demanded, law of demand, non-price determinants of demand
- Explanation: of the law of demand indicating an inverse relationship between price and quantity demanded; of a decrease in demand and factors that can cause a decrease, resulting in a lower price as well as lower quantity
- Diagram: demand and supply diagram showing initial equilibrium and a leftward shift in the demand curve, resulting in a lower equilibrium price and quantity

2.5 a Answers may include:

- Definitions: supply, quantity supplied, law of supply, non-price determinants of supply
- Explanation: of the law of supply indicating a positive relationship between price and quantity supplied; of an increase in supply and of the factors that can cause an increase, resulting in a lower price and higher quantity, with reference to changes in supply and factors that can cause changes in supply
- Diagram: demand and supply diagram showing initial equilibrium and a rightward shift in the supply curve, resulting in a lower equilibrium price and greater equilibrium quantity

Law and Regulation of Mobile Payment Systems Joy Malala, 2017-11-28 Over the last ten years mobile payment systems have revolutionised banking in some countries in Africa In Kenya the introduction of M Pesa a new financial services model has transformed the banking and financial services industry Giving the unbanked majority access to the financial services market it has attracted over 18 million subscribers which is remarkable given that fewer than 4 million people in Kenya have bank accounts This book addresses the legal and regulatory issues arising out of the introduction of M Pesa in Kenya and its drive towards financial inclusion It considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools institutional arrangements and government decisional processes through the examination as a whole of its regulatory capacity This is done with a view to understanding the regulatory capacity of Kenya in addressing the vulnerabilities presented by technological innovation in the financial industry for consumers after financial inclusion It also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the Central Bank of Kenya has taken in addressing the legal and regulatory issues presented by mobile payments The book argues there are significant gaps in the regulatory regime of mobile banking in Kenya
