Kurdish Awakening Nation Building In A Fragmented Homeland:

Kurdish Awakening Ofra Bengio, 2014-11-15 *Kurdish Awakening* examines key questions related to Kurdish nationalism and identity formation in Syria Iraq Iran and Turkey The world s largest stateless ethnic group Kurds have steadily grown in importance as a political power in the Middle East particularly in light of the Arab Spring As a result Kurdish issues political cultural and historical alike have emerged as the subject of intense scholarly interest This book provides fresh ways of understanding the historical and sociopolitical underpinnings of the ongoing Kurdish awakening and its already significant impact on the region Rather than focusing on one state or angle this anthology fills a gap in the literature on the Kurds by providing a panoramic view of the Kurdish homeland s various parts The volume focuses on aspects of Kurdish nationalism and identity formation not addressed elsewhere including perspectives on literature gender and constitution making Further broad thematic essays include a discussion of the historical experiences of the Kurds from the time of their Islamization more than a millennium ago up until the modern era a comparison of the Kurdish experience with other ethno national movements and a treatment of the role of tribalism in modern nation building This collection is unique in its use of original sources in various languages The result is an analytically rich portrayal that sheds light on the Kurds prospects and the challenges they confront in a region undergoing sweeping upheavals

Ethnic Boundaries in Turkish Politics Zeki Sarigil, 2018-09-04 The Kurdish Movement in Turkey s growing alliance with Islam One of the fault lines of Turkish politics traditionally has been the divide between religious and secular movements However as Zeki Sarigil argues the secular Kurdish movement in Turkey has increasingly become aligned with Islam As a result Islam has become part of the movement s political discourse strategies and actions *Ethnic Boundaries in Turkish Politics* traces the evolving relations between the leftist secular Kurdish movement and Islam from an apathetic and or antagonistic attitude in the 1970s and 1980s to an increasingly Islam friendly approach in the 1990s to an attitude of accommodation and the rise of Kurdish Islamic synthesis in the early 2000s Based on 104 interviews in several provinces in Turkey primarily Ankara Diyarbakir Istanbul and Tunceli between 2011 and 2015 as well as ethnographic data public opinion surveys and statements from the Kurdistan Workers Party PKK and Kurdish leaders Sarigil shows how the secular Kurdish movement increasingly has been endorsing Islam and Islamic actors The reasons for this Islamic opening are global national and local Sarigil demonstrates that a group of strategic and ideological factors have encouraged and or forced Kurdish leaders to redraw symbolic and social boundaries of the movement Namely with the end of the Cold War support for Marxist ideas collapsed creating increasingly more favorable responses towards religion In addition the movement s need to expand its social basis and popularity electoral politics and legitimacy struggles against rival political actors were other major factors which triggered the Kurdish movement s boundary expansion i e its Islamic opening The study also shows that the Kurdish boundary making was not without any tension or contestation The boundary expansion by Kurdish ethnopolitical elites triggered both internal and external boundary contestations The movement s embrace of

Islam on a more widespread level has major ramifications for politics in Turkey and in the region Ethnic Boundaries in Turkish Politics has important insight into the PKK modern Turkish and Islamic societies and highlights the increasing role of Islam in global politics **Under the Banner of Islam** Gülay Türkmen,2021-01-22 Sunni Islam has played an ambivalent role in Turkey's Kurdish conflict both as a conflict resolution tool and as a tool of resistance Under the Banner of Islam uses Turkey as a case study to understand how religious ethnic and national identities converge in ethnic conflicts between co religionists Gülay Türkmen asks a question that informs the way we understand religiously homogeneous ethnic conflicts today Is it possible for religion to act as a resolution tool in these often violent conflicts In search for answers to this question in Under the Banner of Islam Türkmen journeys into the inner circles of religious elites from different backgrounds non state appointed local Kurdish meles state appointed Kurdish and Turkish imams heads of religious NGOs and members of religious orders Blending interview data with a detailed historical analysis that goes back as far as the nineteenth century she argues that the strength of Turkish and Kurdish nationalisms the symbiotic relationship between Turkey's religious and political fields the religious elites varying conceptualizations of religious and ethnic identities and the recent political developments in the region particularly in Syria all contribute to the complex role religion plays in the Kurdish conflict in Turkey Under the Banner of Islam is a specific story of religion ethnicity and nationalism in Turkey's Kurdish conflict but it also tracks a broader narrative of how ethnic and religious identities are negotiated when resolving conflicts *The Middle East and North Africa* Alasdair Drysdale,2024-10-15 This contemporary text the first in over a decade on the region presents the geography of the Middle East and North Africa defined as the Arab World Israel Turkey Iran and Afghanistan Thematically organized the book's eleven chapters focus on the region's physical and climatic setting demographic characteristics migration patterns religious and linguistic diversity political map offshore claims oil and gas resources and subregions and states Within this framework Drysdale emphasizes pressing current problems the impact of climate change in a region where some areas already suffer from extreme summer heat and aridity the challenge of providing additional water in a region where per capita availability of freshwater is already the lowest in the world the impact of high fertility and rapid population growth in a fragile environment where economies are often unable to absorb young workers entering the labor force the looming prospect of an aging population the effects of out and in migration the diverse impact and role of Islam in daily and public life the integrative consequences of linguistic and ethnic diversity the evolution and imperfections of the political map ongoing territorial and boundary disputes that often have global repercussions external dependence on the region's prolific oil and gas resources and the extreme regional inequalities associated with their presence or absence This timely and insightful analysis is essential reading for students of the region who need a better understanding of key regional characteristics challenges and issues *The Kurds and the Politics of Turkey* Deniz Çifçi,2019-08-08 The Kurds constitute the largest stateless nation in the world Their position in Turkey attracts attention both within the country and

internationally particularly focusing on the demand for Kurdish independence Yet since the 1990s new Kurdish parties have formed within Turkey who have a variety of ideologies and demands that go beyond and differ in opinion on the question of independence Much of the present literature on the topic looks at the Kurds of Turkey as a homogenous group with unified political demands which over simplifies their position within the political backdrop of Turkey This book seeks to provide nuance and depth to the current debate on Kurdish political agency and presence in Turkey Presently the Kurds political demands can be classified into four categories democratic autonomy their cultural rights to be granted federalism territorial autonomies and independence creation of a Kurdish nation state In a broad sense these models can also be ordered into two categories territorial political models federalism and independence and non territorial political models democratic autonomy and cultural rights Considering the diversity within the Kurdish community intertwinement of tribal ethnic and national identity and differences in their language religion and ideology there are several contributing factors for the emergence of the current varied political demands of Kurds By explaining variation among the Kurds political demands through close analysis of existing at emerging parties this study challenges a deterministic approach to the Kurds which currently dominates the discourse

The Kurdish Question Revisited Gareth Stansfield, Mohammed Shareef, 2017-08-15 The Kurds once marginal in the study of the Middle East and secondary in its international relations have moved to centre stage in recent years The contributors to *The Kurdish Question Revisited* offer insights into how this once seemingly intractable immutable phenomenon is being transformed amid the new political realities of the Middle East

State and Society in Iraq Benjamin Isakhan, Shamiran Mako, Fadi Dawood, 2017-03-17 The activities of ISIS since 2014 have brought back to centre stage a series of very old and very troubling questions about the integrity and viability of the Iraqi state However most analysts have framed recent events in terms of their immediate past and without the contextual background to explain their evolution *State and Society in Iraq* moves beyond a short sighted analysis to place the complex and contested nature of Iraqi politics within a broader and deeper historical examination In doing so the chapters demonstrate that beyond the overwhelming emphasis on failed occupations cruel tyrants ethnic separatists and violent religious fanatics is an Iraqi people who have routinely agitated against the state advocated for legitimate and accountable government and called for inter communal harmony When the authors maintain the Iraqi people are given agency in the complex process of consent negotiation and resistance that underpin successful state society relations the nation can move beyond patterns of oppression and cruelty of dangerous rhetoric and divisive politics and towards a cohesive peaceful and prosperous future despite the many difficulties and the steep challenges that lie ahead

Struggle and Survival under Authoritarianism in Turkey Burcu Yasemin Seyben, 2020-11-25 After the Justice and Development Party AKP came to power in Turkey in 2002 the AKP grew into an authoritarian government as it politically and culturally oppressed citizens and institutions In *Struggle and Survival under Authoritarianism in Turkey* Theatre under Threat Burcu Yasemin Seyben argues that theatre was deliberately targeted because theatre institutions and companies embodied the cultural program of the statist and Kemalist cultural policy that has continually excluded Muslims and various religious and ethnic minorities Although the AKP claimed to be replacing the top down discriminatory and secular statist and Kemalist theatre system with a facilitative and inclusive one the AKP gradually adapted a more authoritarian system as evidenced by their efforts to close and defund theatres ban plays and force theatre artists to exile Despite the AKP's increasing oppression Seyben studies contemporary Turkish theatre to establish that a few theatre institutions companies and artists have managed to survive and develop democratic cultural policies and strategies that will outlive the AKP government
