

Exponential Growth and Decay

Date _____ Period _____

Solve each exponential growth/decay problem.

- 1) For a period of time, an island's population grows at a rate proportional to its population. If the growth rate is 3.8% per year and the current population is 1543, what will the population be 5.2 years from now?
- 2) During the exponential phase, *E. coli* bacteria in a culture increase in number at a rate proportional to the current population. If the growth rate is 1.9% per minute and the current population is 172.0 million, what will the population be 7.2 minutes from now?
- 3) Radioactive isotope Carbon-14 decays at a rate proportional to the amount present. If the decay rate is 12.10% per thousand years and the current mass is 135.2 mg, what will the mass be 2.2 thousand years from now?
- 4) A savings account balance is compounded continuously. If the interest rate is 3.1% per year and the current balance is \$1077.00, in how many years will the balance reach \$1486.73?

1) Using the exponential growth formula, $A = Pe^{rt}$, where A is the final amount, P is the initial amount, r is the growth rate, and t is the time, we can solve for the population after 5.2 years. The initial population is 1543, the growth rate is 3.8% (or 0.038), and the time is 5.2 years. Substituting these values into the formula, we get $A = 1543e^{0.038(5.2)}$. Calculating this, we find that the population will be approximately 1843.5 after 5.2 years.

2) Using the exponential growth formula, $A = Pe^{rt}$, where A is the final amount, P is the initial amount, r is the growth rate, and t is the time, we can solve for the population after 7.2 minutes. The initial population is 172.0 million, the growth rate is 1.9% (or 0.019), and the time is 7.2 minutes. Substituting these values into the formula, we get $A = 172.0e^{0.019(7.2)}$. Calculating this, we find that the population will be approximately 184.5 million after 7.2 minutes.

ICLSSE 2020 Putu Indra Christiawan ,Eko Budiyanoto ,Ardyanto Tanjung,S Sriyanto,Robbi Rahim,2021-01-04 As an annual event The 2nd International Conference on Law Social Sciences and Education ICLSSE 2020 continued the agenda to bring together researcher academics experts and professionals in examining selected theme by applying multidisciplinary approaches In 2020 this event will be held in 10 November at Universitas Pendidikan Ganesha The conference from any kind of stakeholders related with Education Political Law and Social Related Studies Each contributed paper was refereed before being accepted for publication The double blind peer reviewed was used in the paper selection **Rethinking Insecurity, War and Violence** Damian Grenfell,Paul James,2008-07-25 Rethinking Insecurity War and Violence Beyond Savage Globalization is a collection of essays by scholars intent on rethinking the mainstream security paradigms Overall this collection is intended to provide a broad and systematic analysis of the long term sources of political military and cultural insecurity from the local to the global The book provides a stronger basis for understanding the causes of conflict and violence in the world today one that adds a different dimension to the dominant focus on finding proximate causes and making quick responses Too often the arenas of violence have been represented as if they have been triggered by reassertions of traditional and tribal forms of identity primordial and irrational assertions of politics Such ideas about the sources of insecurity have become entrenched in a wide variety of media sources and have framed both government policies and academic arguments Rather than treating the sources of insecurity as a retreat from modernity this book complicates the patterns of global insecurity to a degree that takes the debates simply beyond assumptions that we are witnessing a savage return to a bloody and tribalized world It will be of particular interest to students and scholars of international relations security studies gender studies and globalization studies *Ethiopia, Problems of Sustainable Development* Svein Ege,1990

Studies on Selected Development Problems in Various Countries in the Middle East ,1971 **Bali's silent crisis** Jeff Lewis,Belinda Lewis,2009-04-16 Bali and Balinese culture have become central to western imaginings of the east Along with its natural beauty and tropical sensuality Bali s rich and complex culture has proved intensely alluring for western artists scholars and travelers However as this aesthetic imagining and desire for beauty have evolved into a mass tourism industry the island people and their culture have experienced radical and rapid transformation While many in the international community were stunned by the horror of the militant bombings in 2002 and 2005 these attacks were merely the apex of a profound and ongoing crisis which resonates through the period of Bali s modernization and engagement with the global economy of pleasure Bali s Silent Crisis examines and elucidates the complex cultural and political environment of contemporary Bali The book explains the conditions of crisis in Bali in terms of a powerful collision of cultural elements and trends focusing specifically on the double matrix of desire and violence that has characterized Bali s recent past Moving beyond a simple opposition between tradition and the modern this book reveals a society that is struggling to reconcile its

own profound aesthetic and sense of historical identity with the intense agonisms that are generated through rapid social and cultural change Through its thematic approach Bali s Silent Crisis presents an image of community trauma creative resilience and pluralization The book records the challenges and horrors associated with transition as well as the formidable beauty that remains intrinsic to the island s sense of cultural destiny *Indonesia* ,1994-01-01 Indonesia has been remarkably successful in achieving its development objectives over the past 25 years Although it is still a low income country its tradition of sound economic management has laid the foundations for continued progress in the decades ahead As the Indonesian government formulates its second long term development plan issues of environmental quality and sustainability raise new concerns This report examines environmental issues assesses their implications for the achievement of development goals and suggests an action plan that would help to ensure that those goals will be met The analysis of current environmental conditions and trends and of the likely impact of future growth leads to three main conclusions Future growth will depend increasingly on Indonesia s stock of key natural resources and the sustainability of critical ecosystems The industrial sector will continue to expand in urban areas where growing congestion and industrial pollution pose an immediate threat to health and human welfare This will eventually lead to negative effects on the economy As a result of rapid growth environment related issues of equity among the population will become increasingly important The Fourth Circle John Fitzgerald McCarthy,2006 This book analyzes the political legal and economic dynamics shaping environmental outcomes across two districts in Aceh one of the richest and most expansive areas of tropical rainforest in Southeast Asia Its central theme is that the present cycle of ecological decline can best be understood in terms of the way political economic and social forces operate at the district level **Population, Development, and the Environment** A. C. K. Nambiar,2005 Study on internal migration in Malabar Kerala and its impact on socio economic structure of the place Handbook of Social Problems George Ritzer,2003-11-13 Ritzer s Handbook of Social Problems offers a comprehensive treatment of today s major societal issues The articles are authored by some of the top scholars in the field and address problem areas that will capture the interests of students and professors alike The international coverage is most welcome in this time of intensifying global inequalities Nancy Jurik Arizona State University The Handbook of Social Problems A Comparative International Perspective provides a unique broadly comparative perspective on the current state of social problems and deviance in a variety of societies around the world Editor George Ritzer along with leading U S and international sociologists examines the relationship between social problems and a society s level of development and affluence The essays in this volume focus on four interrelated issues involved in the relationship between social problems and the level of development and affluence Less developed and less affluent societies are more likely to experience a range of social problems than developed and affluent societies Affluence causes or at least brings with it a series of social problems that do not exist in less affluent societies It is only with affluence that certain things can come to be imagined as social problems such as excessive consumption The very

affluence of a society makes it vulnerable to problems that would not be social problems in poorer societies The Handbook explores the theory of the weakness of the strong in other words strong or wealthy nations may have greater vulnerability to some social problems than less developed or affluent societies This theory is clearly illustrated in this volume by the aftermath of September 11 2001 depicting the vulnerability of the U S to social problems in far removed corners of the world In addition the international and comparative essays in this volume cover other important issues such as the impact of modern technologies on social problems ecological problems global inequality health as a social problem and much more The Handbook of Social Problems is a vital resource for sociologists and graduate students as well as an excellent addition to any academic library

Ritual and World Change in a Balinese Princedom Lene Pedersen, 2006 Ritual and World Change in a Balinese Princedom is an ethnography of a contemporary Balinese princedom as it engages with globally influenced circumstances A ritual of ancestral deification serves as a vehicle for talking about the Balinese negara or state power subject formation and local approaches to the changing nation state The stage is set in chapter one with a narrative of the large scale ritual performed by a minor noble house in the highlands of eastern Bali presented as it unfolds in counterpoint with the national political upheaval surrounding President Suharto's fall from power in 1998 Through the lens of the ritual we observe the deliberate reconstitution of ancient forms of caste hierarchy from where we go on to look more closely at the ritual's political dimensions and at how and why the various participants became involved Two discourses join in a surprising way as questions posed about modern politics and the broader meaning of the ritual lead back to issues debated at the level of the nature of the Balinese state In the modern era where the princedom lacks obvious forms of power to coerce the question that rises to the fore is why Why do the subjects still follow and work for the princes This question recurs as subsequent chapters investigate what the ritual reveals about the dynamics of the princedom why it was significant and how it relates to other aspects of Balinese culture society history and politics Ritual and World Change examines local approaches to being princes and princely subjects but also to being subjects of and agents in the nation state in times of turmoil This book is part of the Ritual Studies Monograph Series edited by Pamela J Stewart and Andrew Strathern Department of Anthropology University of Pittsburgh An absorbing story about a small kingdom in the mountains of Bali in the process of recreating itself exploring the contrast between the state as a material reality and as an imagined order created through performance J Stephen Lansing Professor of Anthropology University of Arizona and Santa Fe Institute A remarkable portrait of a Balinese Princedom deftly linking political and ritual lives at the local level with influences from the nation state in an era of globalization The maligya ritual becomes a complex site where readers can negotiate the terrain between scholarly and indigenous claims concerning ritual performance politics and the fluctuating face s of kingship Kaja McGowan Associate Professor and Director of Graduate Studies Department of the History of Art and Archaeology Cornell University Pederson has produced a compelling account A key contribution to the regional literature this book is written well enough to appeal more widely to those interested in ritual and in the intersection of religion and politics CHOICE Magazine As well as contributing to the general theory of ritual Pederson's book is of

additional value in that she situates Balinese royal ritual in its Southeast Asian and Austronesian context contributing to a growing body of work concerned with the deconstruction of Bali as a unique and isolated cultural enclave Asia Pacific Journal of Anthropology This lively and highly readable work free of turgid theoretical jargon will be very useful to students and teachers This is a very good engaging and humane book which will be widely read and inform debate for some time to come It is beautifully produced elegantly written and includes many excellent photographs Journal of the Royal Anthropological Institute This is one of the best books on ritual in Bali ever published It is a well documented and well written study with a clear and well organised analysis Lene Pederson has written a beautiful and accessible book that deserves a wide readership especially among those with an interest in how kingship and ritual manifest themselves in modern contexts Anthropological Forum
