Intelligent Tools for Building a Scientific Information Platform Robert Bembenik, Lukasz Skonieczny, Henryk Rybinski, Marzena Kryszkiewicz, Marek Niezgodka, 2013-01-12 This book is a selection of results obtained within two years of research performed under SYNAT a nation wide scientific project aiming at creating an infrastructure for scientific content storage and sharing for academia education and open knowledge society in Poland The selection refers to the research in artificial intelligence knowledge discovery and data mining information retrieval and natural language processing addressing the problems of implementing intelligent tools for building a scientific information platform This book is a continuation and extension of the ideas presented in Intelligent Tools for Building a Scientific Information Platform published as volume 390 in the same series in 2012 It is based on the SYNAT 2012 Workshop held in Warsaw The papers included in this volume present an overview and insight into information retrieval repository systems text processing ontology based systems text mining multimedia data processing and advanced software engineering

Rethinking Insecurity, War and Violence Damian Grenfell, Paul James, 2008-07-25 Rethinking Insecurity War and Violence Beyond Savage Globalization is a collection of essays by scholars intent on rethinking the mainstream security paradigms Overall this collection is intended to provide a broad and systematic analysis of the long term sources of political military and cultural insecurity from the local to the global The book provides a stronger basis for understanding the causes of conflict and violence in the world today one that adds a different dimension to the dominant focus on finding proximate causes and making quick responses Too often the arenas of violence have been represented as if they have been triggered by reassertions of traditional and tribal forms of identity primordial and irrational assertions of politics Such ideas about the sources of insecurity have become entrenched in a wide variety of media sources and have framed both government policies and academic arguments Rather than treating the sources of insecurity as a retreat from modernity this book complicates the patterns of global insecurity to a degree that takes the debates simply beyond assumptions that we are witnessing a savage return to a bloody and tribalized world It will be of particular interest to students and scholars of international relations security studies gender studies and globalization studies

Built Environment, 1992

Energy Informatics Bo Nørregaard Jørgensen, Zheng Grace Ma, Fransisco Danang Wijaya, Roni Irnawan, Sarjiya Sarjiya, 2024-10-18 The two volume set LNCS 15271 and 15272 constitutes the proceedings of the 4th Energy Informatics Academy Conference EI A 2024 held in Kuta Bali Indonesia during October 23 25 2024 The 40 full papers and 8 short papers included in these proceedings were
