## **Lg Indoor Fireplace User Manual:**

Managing Smoke at the Wildland-urban Interface Dale D. Wade, 2007 When prescribed burning is conducted at the wildland urban interface WUI the smoke that is produced can sometimes inconvenience people but it can also cause more serious health and safety problems The public is unlikely to continue to tolerate the use of prescribed fire regardless of the benefits if burn managers cannot keep smoke out of smoke sensitive areas In the South forest management organizations commonly require that plans for prescribed burns pass a smoke screening review and some States require such a review before they will authorize a burn Current screening systems however do not incorporate criteria for use at the WUI This guide describes modifications to the Southern Smoke Screening System for burns at the WUI These modifications couple new research findings with the collective experience of burners who have extensively used the 1976 Southern Smoke Screening System This new smoke screening system is designed for use on burns less than 50 acres in size and has undergone several years of successful field testing in Florida

**Conducting Prescribed Fires** John R. Weir, 2009-10-26 Landowners and managers municipalities the logging and livestock industries and conservation professionals all increasingly recognize that setting prescribed fires may reduce the devastating effects of wildfire control invasive brush and weeds improve livestock range and health maintain wildlife habitat control parasites manage forest lands remove hazardous fuel in the wildland urban interface and create residential buffer zones In this practical and helpful manual John R Weir who has conducted more than 720 burns in four states offers a step by step guide to the systematic application of burning to meet specific land management needs and goals
