*Handbook of Information and Communication Security* Peter Stavroulakis, Mark Stamp, 2010-02-23 At its core information security deals with the secure and accurate transfer of information While information security has long been important it was perhaps brought more clearly into mainstream focus with the so called Y2K issue The Y2K scare was the fear that computer networks and the systems that are controlled or operated by software would fail with the turn of the millennium since their clocks could lose synchronization by not recognizing a number instruction with three zeros A positive outcome of this scare was the creation of several Computer Emergency Response Teams CERTs around the world that now work operatively to exchange expertise and information and to coordinate in case major problems should arise in the modern IT environment The terrorist attacks of 11 September 2001 raised security concerns to a new level The international community responded on at least two fronts one front being the transfer of reliable information via secure networks and the other being the collection of information about potential terrorists As a sign of this new emphasis on security since 2001 all major academic publishers have started technical journals focused on security and every major communications conference for example Globecom and ICC has organized workshops and sessions on security issues In addition the IEEE has created a technical committee on

Communication and Information Security The first editor was intimately involved with security for the Athens Olympic Games of 2004

*Image and Video Retrieval* Wee-Kheng Leow, Michael S. Lew, Tat-Seng Chua, Wei-Ying Ma, Lekha Chaisorn, Erwin M. Bakker, 2007-05-22 It was our great pleasure to host the 4th International Conference on Image and Video Retrieval CIVR at the National University of Singapore on 20-22 July 2005 CIVR aims to provide an international forum for the discussion of research challenges and exchange of ideas among researchers and practitioners in image video retrieval technologies It addresses innovative research in the broad field of image and video retrieval A unique feature of this conference is the high level of participation by researchers from both academia and industry Another unique feature of CIVR this year was in its format it offered both the traditional oral presentation sessions as well as the short presentation cum poster sessions The latter provided an informal alternative forum for animated discussions and exchanges of ideas among the participants We are pleased to note that interest in CIVR has grown over the years The number of submissions has steadily increased from 82 in 2002 to 119 in 2003 and 125 in 2004 This year we received 128 submissions from the international communities with 81 63 3% from Asia and Australia 25 19 5% from Europe and 22 17 2% from North America After a rigorous review process 20 papers were accepted for oral presentations and 42 papers were accepted for poster presentations In addition to the accepted submitted papers the program also included 4 invited papers 1 keynote industrial paper and 4 invited industrial papers Altogether we offered a diverse and interesting program addressing the current interests and future trends in this area

**Fault-tolerant Control Systems** Hassan Noura, Didier Theilliol, Jean-Christophe Ponsart, Abbas Chamseddine, 2009-07-30 The series *Advances in Industrial Control* aims to report and encourage technology transfer in control engineering The rapid development of control technology has an impact on all areas of the control discipline New theory new controllers actuators sensors new industrial processes computer methods new applications new philosophies new challenges Much of this development work resides in industrial reports feasibility study papers and the ports of advanced collaborative projects The series offers an opportunity for researchers to present an extended exposition of such new work in all aspects of industrial control for wider and rapid dissemination Control system design and technology continues to develop in many different directions One theme that the *Advances in Industrial Control* series is following is the application of nonlinear control design methods and the series has some interesting new commissions in progress However another theme of interest is how to endow the industrial controller with the ability to overcome faults and process degradation Fault detection and isolation is a broad field with a research literature spanning several decades This topic deals with three questions How is the presence of a fault detected What is the cause of the fault Where is it located However there has been less focus on the question of how to use the control system to accommodate and overcome the performance deterioration caused by the identified sensor or actuator fault

**Digital Watermarking** Mauro Barni, Ingemar Cox, Ton Kalker, Hyoung Joong Kim, 2005-09-21 We are delighted to welcome the attendees of the Fourth International Workshop on Digital Watermarking IWDW Watermarking continues to generate strong academic interest Commercialization of the technology is proceeding at a steady pace We have seen watermarking adopted for DVD audio Fingerprinting technology was successfully used to determine the source of pirated video material Furthermore a number of companies are using watermarking as an enabling technology for broadcast monitoring services Watermarking of digital cinema content is anticipated Future applications may also come from areas related to digital rights management For example the use of watermarking to enhance legacy broadcast and communication systems is now being considered IWDW 2005 offers an opportunity to reflect upon the state of the art in digital watermarking as well as discuss directions for future research and applications This year we accepted 31 papers from 74 submissions This 42% acceptance rate indicates our commitment to ensuring a very high quality conference We thank the members of the Technical Program Committee for making this possible by their timely and insightful reviews Thanks to their hard work this is the first IWDW at which the national proceedings are available to the participants at the time of the workshop as a Springer LNCS publication
