Miracle and Magic Andy Reimer, 2002-12-01 Miracle workers and magicians are difficult characters for contemporary readers of Greco Roman narratives to comprehend and to distinguish. Hindered both by our modern definitions of miracle and magic we need to focus our attention on those ancient texts that deal with such characters and their differentiation. Two such texts, the Acts of the Apostles and Philostratus' Life of Apollonius, come from quite different religious backgrounds but demonstrate remarkably similar subtle cultural scripts at play. A detailed investigation of the social interactions in these two narrative worlds brings these characters and their communities alive and reveals how legitimate miracle workers were distinguished from illegitimate magicians by the Mediterranean population of the Greco Roman world. **Scope English:**

**Literature and Reading Program**, 1988 *A History of Russian Literature* Andrew Kahn, Mark Naumovich Lipovetskiĭ, Irina Reyfman, Stephanie Sandler, 2018 Russia possesses one of the richest and most admired literatures of Europe reaching back to the eleventh century. A History of Russian Literature provides a comprehensive account of Russian writing from its earliest origins in the monastic works of Kiev up to the present day, still rife with the creative experiments of post-Soviet literary life. The volume proceeds chronologically in five parts extending from Kievan Rus in the 11th century to the present day. The coverage strikes a balance between extensive overview and in-depth thematic focus. Parts are organized thematically in chapters which contain a number of keywords that are important literary concepts that can serve as connecting motifs and case studies in depth discussions of writers, institutions, and texts that take the reader up close. Visual material also underscores the interrelation of the word and image at a number of points particularly significant in the medieval period and twentieth century. The History addresses major continuities and discontinuities in the history of Russian literature across all periods and in particular brings out trans-historical features that contribute to the notion of a national literature. The volume's time range has the merit of identifying from the early modern period a vital set of national stereotypes and popular folklore about boundaries, space, Holy Russia, and the charismatic king that offers culturally relevant material to later writers. This volume delivers a fresh view on a series of key questions about Russia's literary history by providing new mappings of literary history and a narrative that pursues key concepts rather than individual authorial careers. This holistic narrative underscores the ways in which context and text are densely woven in Russian literature and demonstrates that the most exciting way to understand the canon and the development of tradition is through a discussion of the interrelation of major and minor figures, historical events, and literary politics, literary theory, and literary innovation. **Questions and**
