Krupakaran, P Khandekar,2022-08-13 IAF from its humble beginning in 1932 has transformed itself into fourth largest AF operating at frontiers of technologies with multi dimensional capabilities and a potent force to reckon with It is said that the history is written by winners But what is important is that the history is documented impartially objectively and factually as much as possible It may be worth for IAF to consider coming out with a book each on Operations Maintenance and Administration depicting the historical decisions taken successes and failures in equal measure and how the IAF progressed over the decades to be what it is today a professionally managed optimally exploited synergistically working and one of the most effective instruments of national power to ensure accomplishing objectives of the nation Yes coffee table books and anniversary issues do gloss over a few events but the real history is made by the toil blood and sweat and tears of the men behind these operations Individual awards and citations many times compromise on actualities and are miserly with truth History is an argument without an end said Pieter Geyl the Dutch historian I am glad to recommend this book to all as the

readers of the book irrespective of their background will enjoy the journey of these spanners and screwdrivers of 12 AEC covering almost 900 man years of IAF maintenance It is also bound to raise curiosity in many minds to know more about air force maintenance The book may act as a lighthouse for a lot of the present serving aeronautical engineers in their progression Air Marshal KS Bhatia PVSM AVSM BAR 40 years of IAF maintenance history told through the voices of 39 outstanding air force officers with an unsurpassed breadth of experience and accomplishments Most inspiring Ramesh Dontha Author of The 60 Minute Startup series of books 3 times bestselling author Gold Medal Award winner in 2020 Reader s Favorite International Competition Marketing **Aircraft of The Royal Australian Air Force** Air Force History Branch,2021-06-01 Aircraft of The Royal Australian Air Force tells the story of the RAAF s first one hundred years by describing the acquisition operation and service record of the multitude of aircraft types flown by the RAAF The 176 aircraft types include the flimsy wood and canvas aircraft typical of World War I through the technological advances during and after World War II to modern fifth generation complex aircraft like the F 35 Lightning II Even before its formation Sir Richard Williams the Father of the RAAF had decided to employ an alpha numeric numbering system to identify and account for each aircraft in service This system started with A1 A2 A3 etc as each type of aircraft came into service Each individual aircraft within each series was identified as A1 1 A1 2 and so on and the aircraft serial became known colloquially as the A number With some exceptions over the century since the A number system started aircraft entered RAAF service in broadly the sequence of the A numbers and so this book is intended to assist in charting the 100 year history of the RAAF by listing aircraft operated in A number sequence rather than by listing them by role such as Fighter Bomber Maritime Trainer Transport etc or alphabetically by name or by manufacturer The inclusion of a comprehensive Index and the Quick Reference Guide to aircraft by role is intended to facilitate the location of the entry for any specific type of aircraft for those who may not already know its A number Aircraft of The Royal Australian Air Force is a must have for all those who have served in the RAAF those with a passion for military aviation and aircraft in general and the broader members of the public wishing to gain an appreciation of the Royal Australian Air Force in its centenary year The CB PLL Data Book Lou Franklin,1995
