Photoshop Elements 4: The Missing Manual Barbara Brundage, 2005-10-31 The popularity of digital cameras continues to grow exponentially. They are now more powerful, feature-rich and affordable, turning digital photography into a mainstream interest. And with Photoshop Elements, Adobe has created the most popular photo editing program on the planet. Learning how to work Photoshop Elements and manage digital photos can be a challenge for anyone just getting started, from the hobbyist to the pro photographer. With the latest Photoshop Elements 4 update, Adobe delivers a powerful new program that provides photo editing and organizing functionality with improved performance. The updated version also includes new, more intuitive features that are streamlined and easier to use when the photographer has the right learning tool in hand. With Photoshop Elements 4: The Missing Manual, author Barbara Brundage has written the perfect digital photography guide. In a clear, easy-to-read format, the author provides step-by-step instruction so readers can learn what they need to do to edit their photos successfully and manage their collection. This new edition also includes more than a dozen downloadable images so readers can practice using the editing tools. Readers will master useful editing techniques from the most common to the advanced: Automatically correct red eye and skin tones. Select and extract complex objects with the Magic Selection Brush and The Magic Extractor. Create photomontages. Restore old photographs. Post photos on the web. Manage and archive an entire collection. Design a custom slide show with panning and zooming capabilities. Once photographers learn how to edit their photos successfully, they'll also learn how to post them online or upload them to the Kodak EasyShare Gallery for use in creating personal mailing lists, post cards, calendars and much more. Photoshop Elements 4: The Missing Manual is for any photographer interested in learning the right editing techniques for producing and sharing beautiful digital photography. Photoshop Elements 4: The Missing Manual covers the Windows version of the software only. When we published the book, there was no Mac version of the software as there is now, and for various reasons we've been unable to update this edition to include the Mac version. Nonetheless, if you're on a Mac, you can use this book. Just substitute Command for Ctrl and Option.

for Alt whenever you see keystroke shortcuts and about 98 percent of the Editor functions will work the same The sections on the Organizer only apply to Windows because the Mac version has no Organizer **Photoshop CC: The Missing Manual** Lesa Snider,2013-06-24 Photoshop CC is truly amazing but it can also be overwhelming if you re just getting started This book makes learning Photoshop as easy as possible by explaining things in a friendly conversational style without technical jargon After a thorough introduction to the program you ll delve deep into Photoshop s secrets with expert tips and practical editing advice you can use every day The important stuff you need to know Learn your way around Take a tour of Photoshop s workspace and learn how to customize it Unlock the magic Use layers masks and Smart Objects to safely edit your images Perfect your photos Learn techniques for cropping color correcting retouching and combining photos Master color Drain change and add color create gorgeous black and whites partial color effects and duotones Be artistic Create illustrations paintings and pro level text use filters effectively edit video and create 3D art Share your work Produce great looking images for print presentations and the Web Work smarter and faster Automate common chores and install plug ins for complex tasks

This is because experienced users as well as amateurs are quickly outgrowing the program that was originally bundled with their cameras. Fortunately, Photoshop Elements 3, the latest photo editing software from Adobe, is filling this void. It allows users to achieve high-quality results without the overwhelming complexity of professional-level software. And it's also affordable. As a result, it is the best-selling photo editing software on the market today. Yet while Photoshop Elements 3.0 seems to have everything going in its favor, it is missing one very important element: a manual that explains all of its incredible capabilities. To help consumers truly understand this software, there's now *Photoshop Elements 3: The Missing Manual*. This comprehensive guide from Barbara Brundage offers page after page of valuable insight into this popular program, making it the only book readers will need on the topic. *Photoshop Elements 3: The Missing Manual* does a whole lot more than just point
