## **Missionary Journey Training Manual Cross Church:**

**Training Missionaries** Evelyn Hibbert, Richard Hibbert, 2016-09-08 Missionaries must know God be able to relate well to other people understand and engage with another culture and be able to use the Bible in a way that informs all aspects of their lives and ministries Missionary training must address each of these areas if it is to help Christians to be effective in taking the gospel to the ends of the earth Effective training has been shown to prevent people from prematurely leaving the field It also reduces the danger of cross cultural workers uncritically exporting culturally bound forms of Christianity This book details four key areas that every missionary training program whatever its context must focus on developing It shows how these can be holistically addressed in a learning community where trainers and trainees engage in cross cultural ministry together *The Church in Mission* Betril Ekstrom, 2016-06-01 What does it mean today to be a church totally committed to the gospel and fully engaged in God s mission What major religious and sociological trends in our world are affecting the role of the global church and local churches How must we understand and be prepared to face these trends How do we define church in the twenty first century being faithful to the Scriptures and at the same time relevant to a generation that does not believe in the institutional church anymore What are some good models of missional churches in different regions of the world that will encourage and inspire those who long to see a church making difference in society and in the world These are some of the issues that the book you are holding in your hands addresses There are certainly no final answers and magical forms rather we present a broad and deep discussion on how the gospel should be lived out by Jesus followers in our time and through our communities Questions are raised and analyzed both from the perspective of a local church as well as from a global and general understanding of the Christian church Some of our examples will focus more on local realities others more on global challenges The first part of the book is dedicated to a biblical and theological reflection on gospel church and mission It includes Old and New Testament studies on the theological implications of being church based on the biblical narrative The second part deals with a variety of contemporary missiological issues related to the broader theme of church and mission Different perspectives from current discussions and dialogues around the globe are included covering both ideological reflections and practical aspects of being a mission shaped church The third part presents regional and national case studies that show the enormous creativity in church planting and engagement of local communities in their own societies Models applied in the secularized Europe are contrasted to ways of functioning as church in fast growing congregations in the global South **Journey to a Better Way** John Bailey, 2015-03-12 Every day we witness the impact of poverty injustice disaster and disease Our desire as followers of Christ is to respond with compassion love and grace In recent years the church has responded in an unprecedented way to the needs in the world Still we see little in the way of true progress and transformation In addition despite our good intentions we may be doing more harm than good Speaking from his experience as a mission mobilizer John Bailey shares real life stories from the journey Stories of

success and failure reveal that a better way is not only possible but it is within reach Journey to a Better Way seeks to investigate some of the core reasons why we do not have the impact we hope to have when we face these social physical and spiritual ills Looking through the lens of the Wesleyan mission heritage Journey to a Better Way explores correct motives healthy mission models and unity in the body of Christ as critical areas to consider if we hope to perform better missions
