A Companion to Literary Biography Richard Bradford, 2018-09-12 An authoritative review of literary biography covering the seventeenth century to the twentieth century A Companion to Literary Biography offers a comprehensive account of literary biography spanning the history of the genre across three centuries The editor an esteemed literary biographer and noted expert in the field has encouraged contributors to explore the theoretical and methodological questions raised by the writing of biographies of writers The text examines how biographers have dealt

with the lives of classic authors from Chaucer to contemporary figures such as Kingsley Amis *The Companion* brings a new perspective on how literary biography enables the reader to deal with the relationship between the writer and their work. Literary biography is the most popular form of writing about writing yet it has been largely neglected in the academic community. This volume bridges the gap between literary biography as a popular genre and its relevance for the academic study of literature. This important work allows the author of a biography to be treated as part of the process of interpretation and investigates biographical reading as an important aspect of criticism. Examines the birth of literary biography at the close of the seventeenth century and considers its expansion through the eighteenth, nineteenth and twentieth centuries. Addresses the status and writing of literary biography from numerous perspectives and with regard to various sources, methodologies and theories. Reviews the ways in which literary biography has played a role in our perception of writers in the mainstream of the English canon from Chaucer to the present day. Written for students at the undergraduate level through postgraduate and doctoral levels as well as academics. *A Companion to Literary Biography* illustrates and accounts for the importance of the literary biography as a vital element of criticism and as an index to our perception of literary history.

Family Life and Youth Offending Raymond Arthur, 2006-10-03. The contention that young people commit offences due to inadequate parenting and parental difficulties has been an abiding feature of the debates on juvenile offending. Previously this evidence has been used to design prevention programmes for young offenders who have been processed by the criminal justice system but this book examines how this evidence can be used to prevent offending in the first place. Examining the relationship between the causes of youth offending and the legal duty of the state to address those causes, this book provides evidence to show that improving the family environment could be the most effective and enduring strategy for combating juvenile delinquency and associated behavioural, social and emotional problems. It examines how current child welfare legislation, in particular the Children Act 1989, could be employed to prevent children who are at risk of engaging in antisocial and delinquent behaviour from offending. It abandons the traditional welfare vs justice dichotomy and instead outlines a new approach which focuses on the rights and needs of young people in troubled circumstances and their families.

Proceedings of the Association of History Teachers of the Middle States and Maryland Association of History Teachers of the Middle States and Maryland, 1923. **Proceedings** Middle States Council for the Social Studies (U.S.), 1923.

Minutes [of The] Annual Convention Middle States Council for the Social Studies, 1924. **The Late Medieval Interlude** Fiona S. Dunlop, 2007. Sensitive study of the 15-16 century interlude focussing on one of its major concerns: the depiction of male aristocracy and the development to maturity. The commercial theatre of the late sixteenth century is often credited with introducing its audiences to new modes of thought about the self, society and the nation, making them conscious that the self is performed as an actor performs a role. Yet the earlier interlude drama, originally performed in households and other institutions of the late fifteenth and sixteenth centuries, indicates that the late medieval period was fully aware of the

theatricality of identity This book argues that ideas of performance inform the concepts of aristocratic masculinity developed in the plays *Nature Fulgens* and *Lucre's The Worlde* and the *Chylde The Interlude of Youth* and *Calisto and Melebea* It examines how the depiction of young male aristocrats in these texts is shaped by ideas of male youth constituted in the middle ages and shows them as failing or succeeding to perform an adult noble masculinity in the aristocratic body and in aristocratic household The book also suggests ways in which the plays offer discreet praise and censure of the manner in which their noble patrons performed as aristocrats Throughout it brings out the subtle qualities of the interludes which the author shows have been unjustly neglected Dr FIONA S DUNLOP is Research Associate of the Centre for Medieval Studies University of York
