NamPower John K. Bannon, 2007 *Adult Learning and Training Providers in Namibia*, 2003 **A Guidebook for Manufacturers in Namibia**, 1998 **Capacity Building for a Reforming African Power Sector** J. Baguant, 2002

Capacity building for the power sector is an important national responsibility which Governments in Africa need to seriously address. The inability of Governments to mobilize the required level of investment and commitment to the development and retention of a wide array of skills needed by the power sector is in part responsible for many of the difficulties that are faced by the region's electricity industry. Under the aegis of the AFREPREN Capacity Building Theme Group a regional study and four country studies Zimbabwe Mauritius Ethiopia and South Africa addressed the capacity building question in the African power sector. This volume presents the findings of the studies. The studies analyse issues of manpower recruitment training and retention in national power utilities. They also highlight the challenges and implications of capacity building initiatives in a reforming electricity industry and propose innovative options for capacity building in the region's power sector. **Annual Review** Chamber of Mines of Namibia, 2006 **Telecom Namibia Directory**, 2006 **Information and Communication Technologies for Development in Africa** Ramata Molo Thioune, 2003 Networking Institutions of Learning SchoolNet

Annual Report Namibia. Employment Equity Commission, 2007 **Namibia Trade Directory**, 2008 **Development Centre Studies Regional Integration, FDI and Competitiveness in Southern Africa** Goldstein Andrea, 2004-10-15

By analysing investment flows and examining the role of foreign direct investment in key industries this book examines why Southern Africa has not become a magnet for FDI and what it needs to do to attract more investment. **"Electricity is Life"** Özge Dolunay, This work presents a phenomenological approach to interdisciplinary energy research from a bottom up perspective. The life world methodology sheds light on multilevel off grid energy governance in Namibia by exploring the process of modernization through its four dimensions differentiation rationalization individualization and domestication. This research concludes that a shift in off grid energy governance is occurring in tandem with the meaning of electricity is Life experienced through the energy practices of everyday life. *The Economist*, 2006 *Commercial Directory*, 2006 *An Assessment of Training Needs in Omaheke* Anne-Marie Brits, 1996 *Atti della Fondazione Giorgio Ronchi* Fondazione Giorgio Ronchi, *Proceedings of the Legal Assistance Centre/Institute for Public Policy Research*, 2007 *The Experience with Community Telecentres* Florence Ebam Etta, Sheila Parvyn-Wamahiu, 2003

This volume examines the setting operations and effects of community telecentres. It describes the telecentre experiences of a variety of local and often rural communities exploring the management structures and mechanisms that have been established to support these telecentres. The book provides profiles of telecentre usage and discusses the potential and challenges of setting up and maintaining community telecentres in the context of poor information infrastructure and limited human capacity. **Conservation and the Environment in Namibia**, 2003 *Mekong Bulletin*, 1975 **Official SADC Trade, Industry, and Investment Review**
