Canons and Values Larry Silver, Kevin Terraciano, 2019-08-27 A critical rethinking of the way canons are defined constructed dismantled and revised A century ago all art was evaluated through the lens of European classicism and its tradition This volume explores and questions the foundations of the European canon offers a critical rethinking of ancient and classical art and interrogates the canons of cultures and regions that have often been left at the margins of art history It underscores the historical and geographical diversity of canons and the local values underlying them Twelve international scholars consider how canons are constructed and contested focusing on the relationship between canonical objects and the value systems that shape their hierarchies Deploying an array of
