Evaluation of the Achievement Levels for Mathematics and Reading on the National Assessment of Educational Progress National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences and Education,Board on Testing and Assessment,Committee on National Statistics,Committee on the Evaluation of NAEP Achievement Levels for Mathematics and Reading,2017-04-12 Since 1969 the National Assessment of Educational Progress NAEP has been providing policymakers educators and the public with reports on academic performance and progress of the nation s students The assessment is given periodically in a variety of subjects mathematics reading writing science the arts civics economics geography U S history and technology and engineering literacy NAEP is given to representative samples of students across the U S to assess the educational progress of the nation as a whole Since 1992 NAEP results have been reported in relation to three achievement levels basic proficient and advanced However the use of achievement levels has provoked controversy and disagreement and evaluators have identified numerous concerns This publication evaluates the NAEP student achievement levels in reading and mathematics in grades 4 8 and 12 to determine whether the achievement levels are

reasonable reliable valid and informative to the public and recommends ways that the setting and use of achievement levels can be improved Teaching the EU Anna Visvizi,Mark Field,Marta Pachocka,2021-05-13 Against the backdrop of disintegrative tendencies in the EU this book offers a detailed understanding of the key issues challenges and opportunities that educators across Europe and beyond encounter on a daily basis when teaching EU related course content at higher education institutions *Teaching Social Studies to Multilingual Learners in High School* Mark Newman,Xiaoning Chen,2021-11-15 Teaching Social Studies to Multilingual Learners in High School Connecting Inquiry and Visual Literacy to Promote Progressive Learning explores effective strategies for teaching social studies to diverse learners The centerpiece is a visual literacy framework that integrates inquiry primary source analysis and visual literacy to provide a progressive learning sequence to meet the varied needs of learners The visual literacy framework brings together related aspects of progressive sequential learning into a cohesive whole It has an adaptable structure that allows teachers to customize learning activities to meet individual student needs The progressive learning sequence has varied modes of learning that help teachers move students from basic to proficient to advanced levels of support The book is organized into two related parts The first three chapters provide important content and context on social studies multilingual learner education and the visual literacy framework The remaining chapters discuss civics U S history world history geography and economics and social sciences Each chapter defines the subject area briefly traces its development as a high school subject over time and then offers classroom exercises for using the visual literacy framework in these disciplines The exercises are plotted so that differing levels of the visual literacy framework are explored throughout the book Assessment in Geographical Education: An International Perspective Theresa Bourke,Reece Mills,Rod Lane,2022-02-27 In recent years there has been increased attention paid to the importance of assessment in Geographical Education the chosen subject for this book Assessment is an important tool for collecting information about student learning and for providing timely data to inform key stakeholders including students teachers parents and policymakers To be effective assessment needs to be valid reliable and fair Validity is about ensuring that we assess what we claim we are assessing Reliability is about measuring performance and understanding in a consistent way Without validity and reliability assessment is unlikely to provide equitable opportunities for students to demonstrate what they know and can do As geography educators it is therefore important that we identify the core concepts and skills in geography that we want students to master We need a clear understanding of what the progression of learning looks like for each concept and skill so we can develop fit for purpose assessments that track and improve student learning While there is a substantial literature on evidence based assessment in secondary school contexts research exploring best practice assessment in geography is rare This is a concern given the distinctive nature of geography and the important role of assessment in the learning process This scholarly collection seeks to address this issue by connecting research in educational assessment with the domain of geography The chapters are written by leading

researchers in Geographical Education from across the globe These chapters provide examples of innovation through the collective voices of geography teacher educator scholars from across Australia USA South Korea Germany Switzerland and Singapore What unifies the work in this book is that each chapter focuses on a key feature of the discipline of geography providing scholarly examples of evidence based practices for assessing student s knowledge and skills
