George Michael Face Book:

George Michael's Faith Matthew Horton,2022-05-05 On Saturday June 28 1986 George Michael picked up his tasselled leather jacket walked out of London's Wembley Stadium and cheerfully tore up five years of glittering pop history He'd just disposed of Wham the band he'd formed with school friend Andrew Ridgeley when they were teenagers and now at 23 he knew he was all grown up He just needed to convince everyone else Faith is what happens when you've outstripped your dreams your peers your friends and your fans and no one's caught up yet It's about pouring all of that confusion insecurity and sizzling ambition into music that comes out confused insecure and ambitious and then selling 25 million copies of it George Michael was always preparing for this and in the process he set a template for all disaffected singers making that move This book examines that model and the themes that went into Faith from engaging in politics to crossing over to a Black audience and writing classic pop songs to endure and speaks to the surviving key players to tell the story of how it was made

Misfortune and Fame Paul Berton,2023-10-07 Paul Berton Canada's antidote to the waste and excess of consumer culture is back with another dose of satire at the expense of the rich famous and totally miserable There is little argument that having enough money to meet needs is important But beyond that what makes us happy Is a lot of money the answer Is a glamorous life actually glamorous Must we have thousands of followers on social media only to have the internet rabble criticize us at every turn Amid all the fun and frivolity there is inevitable misery and madness A double edged sword A poisoned chalice That's what this book is about In ten punchy chapters full of anecdotes about the miseries and misfortunes of the affluent Berton offers readers ten reasons NOT to wish for fame or fortune Paul Berton's previous book about consumerism Shopomania was described as a must read primer for understanding how our thirst for acquiring and showcasing things has exacted heavy tolls on our psychology on our society and on the environment Cataloguing the symptoms of our shopaholic culture Berton shares wisdom about breaking the shackles imposed by our possessions Mark Cleveland PhD professor and Dancap Chair in Consumer Behavior University of Western Ontario

technology columnist Noam Cohen chronicles the rise of Silicon Valley as a political and intellectual force in American life. Beginning nearly a century ago and showcasing the role of Stanford University as the incubator of this new class of super geeks, Cohen shows how smart guys like Jeff Bezos, Peter Thiel, Sergey Brin, Larry Page, and Mark Zuckerberg fell in love with a radically individualistic ideal and then mainstreamed it. With these very rich men leading the way, unions, libraries, public schools, common courtesy, and even government itself have been pushed aside to make way for supposedly efficient market-based encounters via the Internet. Donald Trump's election victory was an inadvertent triumph of the disruption that Silicon Valley has been pushing. Facebook and Twitter, eager to entertain their users, turned a blind eye to the fake news and the hateful ideas proliferating there. The Rust Belt states that shifted to Trump are the ones being left behind by a meritocratic Silicon Valley ideology that promotes an economy where, in the words of LinkedIn founder Reid Hoffman, each of us is our own start-up. A society that belittles civility, empathy, and collaboration can easily be led astray. The Know-It-Alls explain how these self-proclaimed geniuses failed this most important test of democracy.
