Trends, 1974 History on Film/Film on History Robert A. Rosenstone, 2014-01-14 Since first publication in 2006 Robert A. Rosenstone's *History on Film/Film on History* has established itself as a classic treatise on the historical film and its role in bringing history to life. In this updated version of his ground-breaking and widely acclaimed text, Robert Rosenstone argues that to leave history films out of the discussion of the meaning of the past is to ignore a major factor in our understanding of past events. He champions the dramatic feature as a legitimate way of doing history even though it is largely fictional. He examines what history films convey about the past and how they convey it, demonstrating the need to learn how to read and understand this new visual world. Integrating detailed analysis of individual history films such as *Glory*, *Reds*, *October*, and *Schindler's List*, this new edition includes a new introduction outlining the impact this work has had on the topic of history and film, as well as general developments in the field. New up-to-date Guide to Key Reading. Detailed examinations of a variety of films: American, European, Mexican, and Soviet, made in different political systems and climates. A chapter focusing on Oliver Stone as a brilliant historian of the Vietnam era. A chapter on recent Holocaust films showing how a group of works taken together can provide a wide-ranging understanding of a single historical event. With its useful guidance on how to effectively analyse films as historical interpretations, this new edition will continue to hold its place as a text which not only shows the value of film on history but also demonstrates how history can work on film.

The Tangled Web of the Civil War and Reconstruction David Madden, 2015-08-05 This unique collection of writings by the celebrated author David Madden provides a multitude of reflections on the Civil War and Reconstruction from nonfiction to fiction. Included are Madden's examination of key works by historians James McPherson and Fletcher Pratt; the story of the effort to simultaneously burn nine bridges by nine unionist guerrilla bands in the most complicated and coordinated guerrilla tactic of the war; and rediscoveries of both classic and contemporary works of Civil War fiction from William Faulkner, Joseph Stanley Pennell, and more. Alongside these essays are pieces from Madden's Civil War novel *Sharpshooter* which illustrate the interconnectedness of fiction and nonfiction. This meshing of iconoclastic and controversial pieces includes varied perspectives on every aspect of the war and reconstruction from culture and civilian life to an imagining of Abraham Lincoln's critique of how historians have recorded the war and its aftermath. By exploring this web of perception we can better understand the war and in turn shed greater light on the present and the future.
