

Parts of a Giraffe

Nomenclature Book

The **giraffe** is an African even-toed, ungulate mammal, the tallest of all land-living animal species. It can grow up to 17 feet tall and weigh as much as 3,000 pounds. The male giraffes are called bulls, and the females are called cows.

Even though a giraffe's **neck** is long, it is too short to reach the ground. It has to awkwardly spread its front legs or kneel to reach the ground for a drink of water. But its long neck allows it to reach other animals.
